1	INDEX OF EXAMINATION	1	WARDEN PHILLIP KERNS
2	Mr. Bohnert 005	2	being by me first duly sworn, as hereinafter
3	Mr. Sweeney 090	3	certified, deposes and says as follows:
	Mr. Bohnert 131	4	EXAMINATION
4	Mr. Sweeney 145	5	BY MR. BOHNERT:
	Mr. Bohnert 165	6	Q Good afternoon, sir.
5		7	A Good afternoon.
6		8	Q You probably don't remember, but my name is
7		9	Alan Bohnert. I am from the Federal Defender's
8 9		10	Office. I represent one client in this
10		11	particular case. With me is Mr. Tim Sweeney,
11		12	who also represents some clients in this case.
12		13	I guess before we get started, if we
13		14	could have you just state your name for the
14		15	record?
15		16	A My name is Phillip Kerns, spelled with two Ls.
16		17	Q And you are the Warden at the Southern Ohio
17 18		18	Correctional Facility; correct?
18		19	A Yes.
20		20	MR. BOHNERT: I guess, also,
21		21	let's let the record reflect that counsel are
22		22	in agreement about the usual stipulations that
23		23	we have used for this series of depositions.
24		24	MR. WILLE: So agree.
25		25	MR. BOHNERT: And, also, I

It's our understanding that the four media witnesses who were actually designated to be witnesses to the eartied execution were Jon MR, BOHNERT: I don't know if we have that on the record, so we will just take care of that. Actually, can we go off the record for a moment. (Discussions were had off the record.) MR, BOHNERT: We will go back in one for the record. At this point I need to make a not the record. At this point I need to make a not for the record. At 14 pag RB 474 in in Deposition Exhibit No. 76, this particular page was a document that was produced—this page and the following page, RB-475, are documents that were produced by the defendants to the plaintiffs in response to discovery request. Included in those discovery requests was information about witnesses from the media who were resent during the September 15, 2009, as reflected in the lower right-hand cornered by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand cornered by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand cornered by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand cornered by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand cornered by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand cornered was a decurate? In MR, BOHNERT: Okay. And so thoecurate and the following page, RB-474 in 13 guess we have already had you identify yourself, and just bear with me. There is just real basic boilerplate stuff that I have to go the defendants will a plaintiff in response to discovery requests. A Yes. Yes. A Yes. Q And so I will do my best to not reference anything as far as information on those team members; or orrect? A Yes. Q Okay. So if I ask anything about team members, just know I don't want any names, I don't want any n		Page 6		Page 8
2 media witnesses who were actually designated to be witnesses who were actually designated to be witnesses to the actual execution were Jon Craig. Stephen Majors, Peter Krouse and Tracy Carloss. I believe those names are on this document that were that on the record, so we will just take care of that. 7 4 Craig. Stephen Majors, Peter Krouse and Tracy Carloss. I believe those names are on this document that is the exhibit. 7 MR. BOHNERT: We will go back 11 MR. BOHNERT: We will go back 11 MR. BOHNERT: We will go back 12 on the record. At this point I need to make a 12 onto for the record. At this point I need to make a 13 note for the record. At this point I need to make a 14 Deposition Exhibit No. 70, this particular page 14 was a document that was produced this page 15 was a document that was produced this page 16 and the following page. RB-475, are documents 16 and the vere produced by the defendants to the 17 deposition today; you understand that? 20 were present during the September 15, 2009, 21 22 Nomell Broom scheduled execution date. 23 This document at RB-474 reflects 24 stipulate that this document as RB-474 reflects 25 2009, as reflected in the lower right-hand 27 correct, 27 2009, as reflected in the lower right-hand 28 correct, Also, if you would like, we can actually stipulate to the media witnesses who 28 20 Okay. So if I ask anything about team members, just know I don't want any names, I don't want any identifying information, I just want, you know, reference to numbers. Mr. Wille has the list of the list that was provided to the District Court. So if there is any question, doublecheck on the list and keep the anonymity; okay? 2 Okay. So if I ask anything about team members, just know, reference to numbers. Mr. Wille has the	1	just need to put on the record, we will use the	1	It's our understanding that the four
Member 21's deposition, as well. 3	2		2	=
MR. WILLE: Yes. 4 Craig, Stephen Majors, Peter Krouse and Tracy Card MR. BOHNERT: I don't know if we have that on the record, so we will just take care of that. 7	3			
document that is the exhibit. The take care of that. The take care of that on the record, so we will just take care of that. Actually, can we go off the record for a moment. (Discussions were had off the record.) MR. BOHNERT: We will go back on the record. At this point I need to make a note for the record. At the point I need to make a note for the record. At the point I need to make a note for the record. At the point I need t	4		4	Craig, Stephen Majors, Peter Krouse and Tracy
take care of that. Actually, can we go off the record for a goment. (Discussions were had off the record.) MR. BOHNERT: We will go back of this point I need to make a look of this point I need to make a look of this point I need to make a look of this point I need to make a look of this point I need to make a look of this point I need to make a look of this point I need to make a look of this point I need to make a look of the record. At Page RB-474 in look of the record. At Page RB-474 in look of the record is possibly to the following page, RB-475, are documents that were produced by the defendants to the look of this point I need to make a look of this point I nee	5	MR. BOHNERT: I don't know if	5	Carloss. I believe those names are on this
Actually, can we go off the record for a moment. MR BOHNERT: We will go back another record. At this point I need to make a large of the record. At this point I need to make a large on the record. At this point I need to make a large of the record. At this point I need to make a large of the record. At Page RB-474 in large on the record. At Page RB-474 in large large large was a document that was produced – this page large was a document that was produced – this page large was a document that was produced – this page large was a document that was produced – this page large was a document that was produced – this page large was a document that was produced by the defendants to the large large was plaintiffs in response to discovery request. It is plaintiffs in response to discovery request was information about witnesses from the media who were present during the September 15, 2009, large larg	6	we have that on the record, so we will just	6	document that is the exhibit.
9	7		7	MR. BOHNERT: Okay. And so
10 (Discussions were had off the record.) 10 MR. BOHNERT: We will go back on the record. At this point Incede to make a note for the record. At Page RB-474 in Deposition Exhibit No. 76, this particular page 15 was a document that was produced - this page 16 and the following page, RB-475, are documents that were produced by the defendants to the plaintiffs in response to discovery request. 18 plaintiffs in response to discovery request was information about witnesses from the media who were present during the September 15, 2009, 21 were present during the September 15, 2009, 22 Romell Broom scheduled execution date. 25 the media witnesses who would have been or were 25 possibly present for the 9/15/2009 Broom execution attempt. But defendants also stipulate that this particular document was generated before the September 15th, 2009, 8 Broom execution scheduled date. Is that accurate? 10 MR. WILLE: Yes. That is correct. Also, if you would like, we can actually stipulate to the media witnesses who actually would have witnessed the execution. 14 MR. BOHNERT: Okay. Is there a difference between witness and present? I am not quite sure on that. 15 MR. WILLE: Yes. This document. 16 MR. WILLE: Yes. This document. 17 MR. WILLE: Yes. This document was generated before the September 15th, 2009, as reflected in the lower right-hand actually stipulate to the media witnesses who actually would have witnessed the execution. 14 MR. BOHNERT: Okay. Is there a difference between witness and present? I am not quite sure on that. 17 MR. WILLE: Yes. This document. 18 MR. WILLE: Yes. This document. 19 MR. WILLE: Yes. This document. 20 MR. WILLE: Yes. This document and the document. 21 MR. WILLE: Yes. This document and the document. 22 MR. WILLE: Yes. This document and the document and the document and the deposition to day; you understand that we have a Court Order protecting the anonymity of the team members; correct? 20 A Yes. 20 A	8	Actually, can we go off the record for a	8	those four individuals did actually witness the
11 MR. BOHNERT: We will go back on the record. At this point I need to make a 12 on the frectord. At this point I need to make a 13 note for the record. At Page RB-474 in 14 Deposition Exhibit No. 76, this particular page 15 was a document that was produced — this page 16 and the following page, RB-475, are documents 16 that were produced by the defendants to the 17 that were produced by the defendants to the 18 plaintiffs in response to discovery request. 19 Included in those discovery requests was 20 information about witnesses from the media who 21 were present during the September 15, 2009, 22 Romell Broom scheduled execution date. 23 This document — the defendants will 23 stipulate that this document as RB-474 reflects 24 the media witnesses who would have been or were 25 the media witnesses who would have been or were 26 the media witnesses who would have been or september 22, 5 2009, as reflected in the lower right-hand 6 corner, at 9:09 AM, and that it was not 29 generated before the September 15th, 2009, as Broom execution scheduled date. Is that 29 accurate? 10 MR. WILLE: Yes. That is 11 correct. Also, if you would like, we can 21 actually stipulate to the media witnesses who actually would have witnessed the execution 13 actually would have witnessed the execution 14 MR. BOHNERT: Okay. Is there 2 a difference between witness and present? I am 16 not quite sure on that. 15 MR. WILLE: Yes. This 16 document — 18 page 4 This particular, and the privilege of deposing you the last time around; 19 A Yes. 19 A Yes. 19 A Yes. 10 A A Yes. 10 A Yes.	9	moment.	9	execution attempt or at least the proceedings
12 on the record. At this point I need to make a note for the record. At Page RB-474 in 14 Deposition Exhibit No. 76, this particular page 15 was a document that was produced — this page and the following page, RB-475, are documents 17 that were produced by the defendants to the 18 plaintiffs in response to discovery request. 19 Included in those discovery requests was information about witnesses from the media who 20 were present during the September 15, 2009, 21 were present during the September 15, 2009, 22 Romell Broom scheduled execution date. 25 the media witnesses who would have been or were 17 possibly present for the 9/15/2009 Broom 20 execution attempt. But defendants also 3 stipulate that this particular document was 4 generated by a Mr. Larry Green on September 22, 5 2009, as reflected in the lower right-hand 6 corner, at 9:09 AM, and that it was not 5 generated before the September 15th, 2009, 8 Broom execution scheduled date. Is that 6 cornerct. Also, if you would like, we can actually stipulate to the media witnesses who actually stipulate to the media witnesses who actually supulate to the media witnesses who actually supulate to the media witnesses who actually supulate to the media witnesses who actually would have witnessed the execution. 14 MR. BOHNERT: Okay. Is there 15 a difference between witness and present? I am not quite sure on that. 15 MR. WILLE: Yes. This 16 document 18 MR. WILLE: Yes. This 18 document 18 MR. WILLE: Yes. This 18 document 19 MR. WILLE: Yes. This 19 MR. WILLE: Yes.	10	(Discussions were had off the record.)	10	that occurred on September 15, 2009?
note for the record. At Page RB-474 in Deposition Exhibit No. 76, this particular page that was a document that was produced — this page and the following page, RB-475, are documents that were produced by the defendants to the plaintiffs in response to discovery request. Included in those discovery requests was information about witnesses from the media who were present during the September 15, 2009, This document — the defendants will stipulate that this document as RB-474 reflects the media witnesses who would have been or were Page 7 possibly present for the 9/15/2009 Broom execution attempt. But defendants as stipulate that this particular document was generated by a Mr. Larry Green on September 22, 5 2009, as reflected in the lower right-hand corner, at 9:09 AM, and that it was not generated before the September 15th, 2009, Broom execution scheduled date. Is that accurate? MR. WILLE: Yes. That is MR. WILLE: Yes. This	11	MR. BOHNERT: We will go back	11	MR. WILLE: Yes.
Deposition Exhibit No. 76, this particular page was a document that was produced this page and the following page, RB-475, are documents that were produced by the defendants to the plaintiffs in response to discovery request. Included in those discovery requests was information about witnesses from the media who were present during the September 15, 2009, 22 Romell Broom scheduled execution date. 23 This document the defendants will stipulate that this document as RB-474 reflects the media witnesses who would have been or were 24 generated by a Mr. Larry Green on September 22, 2009, as reflected in the lower right-hand corner, at 9:09 AM, and that it was not generated before the September 15th, 2009, 8 Broom execution scheduled date. Is that accurate? 9 MR. WILLE: Yes. That is correct. Also, if you would like, we can actually stipulate to the media witnesses who actually would have witnessed the execution. MR. BOHNERT: Okay. Is there a difference between witness and present? I am not quite sure on that. 4 MR. WILLE: Yes. This document 4 MR.	12	on the record. At this point I need to make a	12	Q (By Mr. Bohnert) All right. Warden Kerns, I
15 was a document that was produced this page 16 and the following page, RB-475, are documents 17 that were produced by the defendants to the 18 plaintiffs in response to discovery request. 19 Included in those discovery requests was 20 information about witnesses from the media who 21 were present during the September 15, 2009, 22 Romell Broom scheduled execution date. 23 This document the defendants will 24 stipulate that this document as RB-474 reflects 25 the media witnesses who would have been or were 26 rescution attempt. But defendants also 27 stipulate that this particular document was 28 generated by a Mr. Larry Green on September 22, 29 September 25, 2009, as reflected in the lower right-hand 20 corner, at 9:09 AM, and that it was not 21 cornect. Also, if you would like, we can 22 actually stipulate to the media witnesses who 23 actually stipulate to the media witnesses who 24 actually stipulate to the media witnesses who 25 actually supplate to the media witnesses who 26 actually sured hare. 27 A Yes. 28 Q And so I will do my best to not reference anything as far as information on those team members. You understand that? 29 Page 9 10 A Yes. 20 Okay. So if I ask anything about team members, just know I don't want any names, I don't want any identifying information, I just want, you know, reference to numbers. Mr. Wille has the list of the list that was provided to the 29 District Court. So if there is any question, doublecheck on the list and keep the anonymity; okay? 10 A Yes. 11 Q Now you are represented here today by Mr. Wille of the Attorney General's office; correct? 12 A Yes. 13 A Yes. 14 Q And you have given a deposition in this case before; right? 15 A Yes. 16 A Yes. 17 Q As a matter of fact, I think I even had the privilege of deposing you the last time around;	13	note for the record. At Page RB-474 in	13	guess we have already had you identify
that were produced by the defendants to the laintiffs in response to discovery request. Included in those discovery requests was information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses from the media who were present during the September 15, 2009, Information about witnesses who would have been or were Page 7 Page 7 Page 7 Page 9 A Yes. Q Okay. So if I ask anything about team members, you understand that we have a Court Order protecting the anonymity of the team members; correct? A Yes. Q Okay. 20 and just designate who witnessed, actually 20 A Yes. 21 observed, and who was present but did not 21 Q Kind of the same thing. If you don't				
21 Observed, and who was present but did not 21 Q. Kind of the same thing. If you don't 22 witness? 22 understand a question, let me know and I will				_ · · · · · · · · · · · · · · · · · · ·
23 MR. WILLE: Yes. The 23 rephrase it; okay?				=
24 document indicates all of the media 24 A Yes.				
25 representatives who were given authorization. 25 Q And, also, you know, if for the Court				

	Page 10		Page 12
1	Reporter's sake, if you could give a verbal	1	A Yes.
2	answer to everything rather than a gesture or a	2	Q And that's the that document is what you are
3	nod, if that's okay for you?	3	referring to as the checklist?
4	A Will do.	4	A Yes.
5	Q I know you're a busy man. And so if you need	5	Q Now, I notice in the documents that the
	to take a break at any point, just let us know.	6	attorney general's office produced to us, that
6	I just ask that you don't take a break while a	7	this is now well, in the documents that we
7 8	question is pending. If I ask a question,	8	got, it came directly after Page 10 of the
9	finish it and then say, hey, I need to take a	9	written policy, the execution policy. Is it my
10	break or something like that; okay?	10	understanding that this document, the execution
11	A Okay.	11	equipment room and execution checklist as it is
12	Q It is also important that we don't try to talk	12	now configured on Page RB-53 is actually
		13	considered part of the protocol?
13 14	over each other, so let me finish a question and also so that you are totally clear on what	14	A Yes.
15	· · · · · · · · · · · · · · · · · · ·	15	Q So that would explain its proximity to the
16	it is I am asking; okay?	16	other 10 pages?
17	A Yes.	17	A Yes.
	Q Have you done anything to prepare for the	18	
18	deposition today?	19	Q Can you I guess we haven't seen the e-mails that you sent.
19	A Pulled the policy out and looked at it again,	20	•
20 21	and a couple of e-mails, probably.	21	A Okay. Is that I have got them here. You are welcome to look at them, if you like.
22	Q The policy, you are referring to the May 14th,	22	Q I want to clarify what you said there was a
23	2009, execution policy or protocol; correct? A Yes.	23	The state of the s
		24	typo in here that was going to be changed. Can you explain that for us?
24 25	Q Okay. And you said a couple of e-mails. What do you mean by that?	25	A Yes. Where you look under syringes, look down
23		23	
	Page 11		Page 13
1	A I have got a couple of e-mails here. My	1	where it says the second box down, it says 3
2	secretary said there was a typo on the	2	and 4, 100 milligrams pancuronium bromide, 3
3	checklist on pancuronium bromide.	3	milligrams, or ML, concentrate. That should
4	Q Okay.	4	have read 2 instead of 3. It's is a typo.
5	A That instead of being 2, they typed 3. I have	5	So the e-mails I sent are already to
6	already sent e-mails to have them correct that	6	Columbus, to the folks that rewrite the
7	on that form. And I have got an	7	policies for us or make corrections. That has
8	acknowledgement back from our past I guess you	8	already been sent and it has been acknowledged
9	would call it Bureau of Inspections or Bureau	9	that she received it, and I will make that
10	of Audits, the person that would pick the	10	correction right away.
11	adjustment up for them. I already got an	11	Q Is the typo just on the checklist document?
12	e-mail back from her. She was the previous	12	A Yes.
13	inspector. The other inspector is out on	13	Q And is that 3 milligrams per I guess milliliter
14	vacation today. And she already e-mailed me	14	concentration for pancuronium bromide? Is that
15	back saying they will go ahead and fix that.	15	3 milligram concentration typed anywhere else
16	So I guess there is a typo, and so that has been taken care of. I brought the e-mail to	16	in any of the other documents related to the
17	S .	17	execution process?
18 19	show that it has already been acknowledged.	18 19	A No. It was typed on this form here, and I am
20	Q Now, when you talk about the checklist, are you referring to see which page is it one	20	thinking somebody just made an error when they were typing. And so that's why I sent these
21	second here. I want to make sure I get the	21	e-mails to have it corrected.
22	right number. If you look at RB-53, Deposition	22	Q Would it be fair to say this a checklist
23	Exhibit 76, it would be right near the front,	23	reflecting 3 milligram per milliliter
24	Page 53.	23 24	concentration of pancuronium bromide has been
25	You are looking at RB-000053; correct?	25	used for previous executions, however?
23	Tou are fooking at KD-000033, correct:	23	used for previous executions, nowever:

	Page 14		Page 16
1	A I don't think it was during my time, but it	1	policy?
2	could have been. I don't know.	$\frac{1}{2}$	A Yes. If you look down at the very bottom
3	Q Okay. I think Chuck already has Exhibit 73	3	left-hand corner of RB-53, it says DRC4081-dash
4	over there. Do you recognize Exhibit 73?	4	or it has got August of '09 was when it was
5	A Yes.	5	developed.
6	Q And would it be accurate to say that this	6	Q Okay.
7	particular document represents the immediately	7	A If it's updated, like if they correct this
8	previous version of the equipment room and	8	here, it will say probably October of '09, an
9	execution checklist?	9	update or revised.
10	A Yes.	10	Q 10-slash-09?
11	Q So is it fair to say, also, that this is the	11	A Yes.
12	document that was used for the execution team	12	Q Okay.
13	to follow in the Getsy execution?	13	A So once they make that revision, they will make
14	A Yes.	14	that here, but I think the new policy refers to
15	Q And, also, for the well, Getsy, and before	15	it. So May of '05 policy ,I don't think it
16	that was Keene, I believe?	16	actually refers to that policy number. But
17	A Yes.	17	this next revision, when the policy comes out,
18	Q I am getting my numbers mixed up here.	18	will incorporate that form number, but now it
19	A Yes.	19	is a part of that process.
20	Q Keene. And it would have been used for Keene?	20	Q Okay.
21	A Yes.	21	A We usually update the policies once a year
22	Q And it also would have been used for	22	unless there is a need to go back and make an
23	Fautenberry?	23	update on something. Then at that point in
24	A Yes.	24	time then the policy is updated, any forms are
25	Q And also for Wilson before that?	25	added to it.
	Page 15		Page 17
1	A I don't know about Wilson. I know we used this	1	Q So just so I am clear, you are saying that
2	three times. This form this is actually a	2	assuming that there is a new version or a new
3	form we made up. So the typo happened here,	3	written, you know, execution policy, which is I
4	obviously.	4	guess document or starting on Page RB-43
5	Q Okay.	5	A Okay.
6	A And it was sent north and they typed it	6	Q Right? You are at RB- 43?
7	probably exactly the way we had it typed.	7	A Yes.
8	Q Okay.	8	Q So this is No. 01-CON-11; right?
9	A That's what I am going to guess. I don't think	9	A Yes.
10	it was used prior to Fautenberry. It may have	10	Q So this is the current execution policy; is
11	been. We wanted to look at it and make sure it	11	that correct?
12	was exactly what we said we were doing, and	12	A That's correct.
13	once we were comfortable with the form then go	13	Q So you are saying sometime in the next year
14	ahead and get it published into form, actually	14	there will probably be another promulgation of
15	with a DRC form number on it like the new one.	15	this policy, and at that time then that written
16	Q Okay. So when you say the new one, you are	16	policy will formally incorporate, like on the
17	talking about the one that's on Page 53 of	17	last page, will formally incorporate DRC4081?
18	Exhibit 76; right?	18	A That's correct. When we make the update, then
19	A That's correct. I think in my last deposition	19	they will also include the form number that
20	I talked about that, that we were going to have	20	accompanies this particular policy.
21 22	that put in an actual DRC form number, and that's what we've done.	21 22	Q Like down there on the last page where it says related department forms
23	Q This document now on Page 53 this is	23	A That's correct.
24	actually I mean, how would you is this	24	Q You will just add another DRC4081; right?
25	actually formally now part of the written	25	A Yes, that will be the attachment that will go
23	actually formally flow part of the withen	23	12 1 Co, mai win be the attachment that win go

	Page 18			Page 20
1	with it.	1	0	Were you around when that arrival occurred?
2	Q Okay. All right. Have you discussed the	2		I was here in the institution.
3	you said you had reviewed the policy pulled	3		Okay. Did you meet the van or anything like
4	out the policy and you had reviewed that to	4		that?
5	prepare for the deposition today; right?	5		No.
6	A (The witness nodded affirmatively.)	6		Okay. When was the first time that you had any
7	Q And, also, the e-mails about the typo and that	7	_	kind of interaction or any kind of contact with
8	kind of thing?	8		Mr. Broom?
9	A Right.	9		I am going to this is just a guesstimate,
10	Q All right. Have you done anything else to	10		but I am going to say probably around 1, 1:30,
11	prepare for the deposition today?	11		maybe 2 o'clock. We had ACA audit going on at
12	A Mr. Wille and I talked just briefly a couple of	12		the same time, and so
13	days ago. That was it.	13		American Corrections Association, I presume?
14	Q Was that back on Monday, the 28th?	14		Yes. And so I was busy in and out with that,
15	A I believe it was.	15		also. So I think it was probably between 1 and
16		16		2 when I actually went over.
17	Q Okay. Following the rehearsal for the upcoming	17		Okay. Had you discussed anything about
18	Reynolds execution?	18	_	Mr. Broom with any of your team members or
19	A Yes. I think most of that was about scheduling	19		anything at that point?
20	and so on, and the mechanics of how we were	20		No.
	going to do this. It wasn't really about related to this.	21		
21 22				Okay. So you didn't hear of any potential
	MR. BOHNERT: Okay. He said	22		problems that might have been noted at that
23 24	it. I didn't ask. MR. WILLE: You didn't ask.	23		point?
25		24 25		No. Kind of describe to me describe for me what
23	That's okay. Page 19	23	Ų	
	•	١.		Page 21
1	Q (By Mr. Bohnert) Did you have any discussions	1		you did the rest of the day in relation to
2	with anyone else other than Mr. Wille about	2		Mr. Broom. The rest of that day, the 14th.
3	A No.	3		I think I was over there twice to the Death
4	Q Did you talk to Director Collins at all?	4		House. And the first time, like I said, it was
5	A No.	5		around 1 to 2. And, again, I think it was
6	Q Nothing talked about with Greg Trout?	6		early evening I was over there. It might have
7	A No.	7		been 4:30 or 5, a short period of time on both
8	Q You kind of hesitated?	8		occasions, and I was back over here again.
9	A Well, let me revise that. Monday, we talked	9	_	Okay. And were those individual conversations
10	Monday.	10		private between you and Mr. Broom or was anyone
11	Q When you say "we," who do you mean?	11		else present, as well?
12 13	A Actually, Greg and I talked Monday.	12 13		No. The first time I just said "hi" to him,
14	Q Privately?	14		acknowledged him and so on. And the second
15	A No. No. Just down here. We had a	15		Okey New if I recell correctly you become
	conversation, but it wasn't about this			Okay. Now, if I recall correctly, you became the Warden here at SOCF sometime rather
16 17	deposition.	16 17		recently; correct?
18	Q Okay. Let's see. Help me understand the scene on September 14, 2009, just a couple of weeks	18		March of '08.
19	ago, the day before the scheduled Broom	19		Okay. And forgive me, because I don't
20	execution.	20		remember, but were you here in any capacity
21	Mr. Broom arrived with your transport	21		back when Mr. Broom was also an inmate here?
22	team from OSP at, say, I think it was	22		No.
23	approximately 9 o'clock, 9:30 AM that day; is	$\begin{vmatrix} 22 \\ 23 \end{vmatrix}$		Not also, but when Mr. Broom was an inmate
24	that right?	$\begin{vmatrix} 23 \\ 24 \end{vmatrix}$		here?
25	A Yes.	25		No, I wasn't.
23	11 100		А	1109 1 114011 6

	D 00		D 04
	Page 22		Page 24
1	Q You had never met Mr. Broom before that, before	1	Q That's why I was confused.
2	the 14th?	2	A Our normal time would be 9:30, 9:45. This one
3	A No, I had not.	3	we waited until almost noon until we actually
4	Q So you had two interactions with Mr. Broom on	4	got the go-ahead. And so after that we went
5	the 14th?	5	over and we went over the normal process that
6	A One interaction, speaking, just speaking to	6	we do, as far as reading the death warrant, and
7	him. That was it.	7	the team would come in and do an IV insert.
8	Q Okay. At any point during the rest of that day	8	This one was delayed somewhat and then we
9	on the 14th did anybody talk to you about	9	started that process, the IV insert, after the
10	possible complications that might occur the	10	death warrant was read.
11	next day during the attempted execution?	11	Q Let me ask you this. At what point were people
12	A No.	12	made aware that there was going to be a delay?
13	Q So No. 10 never brought it to your attention	13	A I think as soon as we found out, and that was
14	that there were possible	14	early in the morning. I'm going to say we knew
15	A Let me see the list.	15	pretty much at 8:30, 9 o'clock, that we were
16	Q The Major, the Team Leader.	16	going to wait until we got an answer of whether
17	A No, I don't recall him saying anything about	17	we were going to go ahead or not.
18	any possible problems.	18	Q You think it was around 8:30 or so that you got
19	Q Okay. We also have had some kind of reports	19	notice that there was going to be a delay?
20	that some members of the media were informed	20	A I think it was probably we were waiting
21	that there was some members of the media	21	before that. We knew that there was a delay.
22	were informed that prison officials thought	22	We didn't want to move ahead until we got an
23	there might be a problem with the left arm on	23	answer.
24	Mr. Broom. Do you have any knowledge of that	24	Q So if you had to kind of narrow it down, my
25	particular exchange?	25	question is at what point did you first know
	Page 23		Page 25
1	A No.	1	that there was to be a delay? Not, you know,
2	Q So the next day, September 15, the date of the	2	9 o'clock and we are going to just hold.
3	execution, scheduled execution, kind of	3	At what point that morning? I mean, was
4	describe for us in what how your day started	4	it a 2 AM notice or a 7 AM? When did that come
5	then on that day?	5	across?
6	A Well, I think that there was a last second	6	A I think the Director got here probably 7:30,
7	appeal that he was waiting to hear about, and I	7	8 o'clock, in that time frame, in that half
8	think the news was they denied his appeal, if I	8	hour.
9	recall correctly.	9	Q Okay.
10	Then normal time we would go over to the	10	A And I knew at that point that we were on hold
11	Death House, probably 9:15 or so, went to the	11	until we actually got the okay to move ahead,
12	Death House. Victim witnesses, inmate	12	or that his appeal was denied. And we are not
13	witnesses, if there were any, were escorted	13	going to start until we hear from them anyway.
14	over. I read the death warrant. After reading	14	So we waited until the normal time and we
15	the death warrant, then the medical team went	15	didn't hear, so we told the team, "It is
16	in to start the IV insert. And at that point	16	delayed for now, we will let you know when we
17	in time	17	are going to move ahead." And it was sometime
18	Q Now I am confused. You said this was about	18	later that morning when we told them that we
19	9:30?	19	are going to move ahead.
20	A 9:30 to 9:45, in that time frame is when the	20	Q Let me make sure I understand you correctly.
21	process started.	21 22	You learned from the Director, Director
22 23	Actually, no, it wasn't. It was more around 11 because we had to wait until we	23	Collins, at about 8 o'clock that this one is
23 24	were like delayed two hours, come to think of	24	going to be delayed because he has got appeals pending; is that correct?
25	it.	25	A That's correct.
23	11.	123	A That S Collect.

	Page 26		Page 28
1	Q At what point in time did you convey that	1	actually got our map, the map of the
2	information that it was going to be delayed to	2	A (Witness indicating).
3	anyone else, like the Major or anyone else?	3	Q Yeah, schematic, blueprint of the Death House.
4	A I think that I think we relayed the	4	When you say you walked back up, what do you
5	information to our command post over here and	5	mean by that?
6	it was relayed to the Major that it was going	6	A Okay. The holding cell, where the inmate would
7	to be delayed. Probably around 9:15.	7	stay, it is in the upper left-hand corner of
8	Q Okay.	8	this map. When I say ''walk back up,'' I
9	A Just a guesstimate, but I think it was around	9	probably step back four feet or so when the
10	9:15.	10	medical staff went in.
11	Q Okay. So we have had the delay, you get word	11	Q Okay.
12	from someone I guess, I mean, who told you	12	A After they were in and situated, I stepped back
13	that it is all clear, we are good to go? Do	13	up to the doorway to watch how things were
14	you remember?	14	going.
15	A Actually, I think that was that message was	15	Q Okay. So "step up" means that you move back to
16	given to the Director, as I understand it.	16	where you were by the holding cell?
17	Q Okay. And then he conveyed it to you?	17	A That's correct.
18	A Yes.	18	Q So you could see everything that was going on?
19	Q So you don't know who conveyed that?	19	A Yes.
20	A No idea.	20	Q I guess we will fast forward here, because
21	Q Okay. So that message came in about what time?	21	after three days I think we have a fairly good
22	A I'm going to I'm guessing if I tell you, but	22	idea of what was going on in the cell at that
23	I think it was probably around 11, 11:15.	23	point.
24	Q Okay. So then you then go to the team and tell	24	You know, can you describe for me what
25	them everything is clear, no more appeals, and	25	you were thinking? You said you were standing
	Page 27		Page 29
1	we are going to move forward; right?	1	there for about 10 minutes watching the
2	A That's right.	2	attempts to establish an IV access; right?
3	Q And then if I understand correctly, it was	3	A Yes.
4	about two o'clock or so when you actually	4	Q What were you thinking during that point in
5	started the process and went to the cell with	5	time?
6	the death warrant and had your security team	6	A It may have been a little more than 10 minutes,
7	members there; is that correct?	7	but the staff was working very hard to get an
8	A That's correct.	8	IV. We actually hit the veins, and as soon as
9	Q So you read the death warrant, standing in the	9	we would start a saline drip the vein would
10	doorway; is that right?	10	bulge. You would see swelling in the vein so
11	A Yes.	11	you can't use it, you have to make another
12	Q And then I guess just briefly describe for me	12	attempt.
13	what you did.	13	In that 10 to 15 minutes there was
14	A At that point after the death warrant is read,	14	multiple attempts. I will say six or seven,
15	I back away from the cell a little bit, and	15	maybe, in that 10 or 15 minutes. I don't know
16	then the medical team goes in and the inmate	16	the exact number. I wasn't really counting,
17	lays down on the bed and they start working to	17	just looking at the situation. Every time they
18	get an IV site established.	18	made an attempt things just wouldn't hold.
19	Q Okay. And what were you doing at that point	19	Q Okay.
20	in time?	20	A And so our staff, one of the team members
21	A After they were in there, I walked back up and	21	and you could tell that it was getting
22	was watching the attempts there probably for	22	physically warm from him making the attempts
23	the first 10 minutes or so.	23	and so on, so we switched out one member to
24 25	Q When you say "walked back up," I think you have got a map there somewhere. I think you have	24	another member to give that person a break. Q Now, when you say you switched out, what do you
25	got a map mere somewhere. I mink you have	25	Q INOW, when you say you switched out, what do you

	Page 30		Page 32
1	mean by that?	1	during that process. Because they spent as
2	A Do you have a list? I can give you the number.	2	much time looking probably more time looking
3	Q We have got 17 is the person who typically	3	than they did actually doing the IV stick,
4	administers the drugs, the EMT-Intermediate;	4	looking for a good vein or one that was rose up
5	21, we will call him the new guy; and No. 9 is	5	enough that looked like it would hold or so on.
6	the female phlebotomist.	6	They did a lot of searching, even used a vein
7	A No. 9 got a little warm and you could tell that	7	light to locate veins so they can see exactly
8	she needed a break.	8	where they were at.
9	Q This is about 15 minutes in?	9	Q So you are saying for the first 15 minutes,
10	A Probably 15 minutes into it.	10	approximate 15 minutes, you were watching this
11	Q Okay.	11	unfold?
12	A And then after that let me give you the	12	A Probably pretty close.
13	number here so we have this. Then Team Member	13	Q Do you remember No. 9 saying anything when she
14	No. 17 went in and he took over at that point	14	you know, you said you saw her visibly
15	and made several attempts, also.	15	getting to the point where she needed a break.
16	Q Okay.	16	Would that be accurate?
17	A With the same results.	17	A Yes.
18	Q Okay. Now a couple of things. One, I just	18	Q Do you remember her saying anything?
19	want to clarify. You said you could see the	19	A No. She was just she was just hot because
20	vein bulging when the needles were in. Is that	20	the room was warm. She had a lab coat on and
21	something that you personally saw the veins	21	she had been she was looking at working to
22	bulging, or that's your kind of understanding	22	finding a vein, patting and looking for it.
23	of what was going on?	23	Q Did you say anything to her?
24	A I couldn't see it on I couldn't see it on	24	A Yeah. I told her to take a break and let
25	his right arm.	25	somebody else step in and let them try it, you
	Page 31		Page 33
1	Q Okay.	1	know. So we we had her take a break and get
2	A But on his left arm, because of where I was	2	a glass of water and cool down a little bit.
3	standing, where I was standing and the position	3	Q So that decision to send 17 in or to have 17 go
4	he was laying, I could see it on the left arm	4	in, that was at your instigation; is that what
5	when they did the saline drip. You could see	5	you are saying?
6	it start rising, and the medical team there	6	A We just we saw that she needed a break.
7	said, "That won't work, we have to try another	7	Once she broke, I told No. 17, "Why don't you
8	site."	8	give it an attempt."
9	Q When you say the medical team, you are talking	9	Q When you say "we" for clarification, you say
10	about No. 9; right?	10	"we" saw her, that she needed a break.
11	A Yes.	11	A Actually, he used to be the Warden here, Warden
12	Q Is that a direct quote? She said, "That won't	12	Voorhies when he was here. Now he's the South
13	work"?	13	Regional Director. He was also standing there.
14	A On that site there, that's not working. We had	14	Q Right next to you?
15	the same thing with another team member,	15	A Right next to me. He and I were both watching.
16	another team member.	16	He and I both said the same thing, "It is time
17	Q No. 21, on the other side	17	for you to take a break."
18 19	A No, they were still on the same, on the left	18 19	I said to No. 17, "Why don't you go ahead
20	arm. Q 17?	20	and try to give this a try." Q Regional Director Voorhies was standing
21	A Yes. He tried and got a vein and saline drip,	21	shoulder to shoulder with you?
22	and it started swelling and not a good vein, so	$\begin{vmatrix} 21\\22\end{vmatrix}$	A He was on my left and we were standing right
23	he had to try another one.	23	there together by the cell door.
24	Q Okay.	24	Q Okay. Approximately how far was the distance
25	A Like I say, I was there for about 15 minutes	25	from where you were standing to where No. 9
		1	

	Page 34		Page 36
1	was working on the left arm?	1	Q Okay. At that point you say that's
2	A Two feet.	2	approximately 45 minutes, then you say, "We
3	Q So 17 goes in, No. 9 goes out. Did you have	3	need to take a break"?
4	any conversations with 9 when she came out?	4	A Yes.
5	She came out by herself; is that correct?	5	Q At that point who did you have exit the room;
6	A That's correct.	6	do you remember?
7	Q While she was out, No. 17 was in the room;	7	A At that point in time I think all I think 21
8	correct?	8	and 17 came out of the room, and also No. 10.
9	A That is correct.	9	Q Okay.
10	Q And while that was happening, 21 was still	10	A And we went back and away from the inmate, away
11	making attempts on the right arm; is that	11	from Inmate Broom, went back in an area where
12	right?	12	it's another area where they sit back there
13	A Yes.	13	when they are on relief or whatever.
14	Q So No. 9 was out there by herself, you said,	14	Q Is that J-1, I think it has been referred to?
15	getting a drink of water?	15	A Yes. We went back there and talked about what
16	A South Regional Director Voorhies went with her,	16	was going on.
17	got her a drink of water and had her sit down	17	Q When you say "we"?
18	for a few minutes to cool down. He was talking	18	A The three team members I mentioned earlier,
19	with her. I don't know what they were talking	19	plus No. 10. Medical Team Member 10 and
20	about, but he was talking with her.	20	myself.
21	Q You anticipated my next question. I guess that	21	Q And?
22	was going to be do you know did she say	22	A And the Director.
23	anything when she was out there that you	23	Q So Director Collins was there at that point?
24	recall?	24	A Yes.
25	A I just know we were concerned about getting her	25	Q Was Mr. Voorhies also there at that point?
	Page 35		Page 37
1	cooled down. We didn't want her to have a	1	A Yes.
2	problem from being overheated or whatever.	2	Q Anybody else?
3	Q Okay. And how long would you say that that	3	A No, not at that point.
4	scenario was the case, where she was out of the	4	Q Was Nurse Clagg there, as well?
5	room, 17 and 21 were in the room making	5	A No, I don't think she was actually in that
6	attempts.	6	first we met several times. I don't think
7	A I am going I am going to I didn't really	7	she was in that first one. I don't recall her
8	time it, but I'm going to guesstimate it to be	8	being there.
9	25 minutes or so.	9	Q So this first meeting with you, Director
10	Q Okay. So now we are at 15 plus another 25, you	10	Collins, Mr. Voorhies and the three team
11	mean?	11	members, three medical team members, and No. 10
12	A I am thinking, we took a break. There was one	12	do I have that attendance role right?
13	point where we wanted to take a break. I don't	13	A Yes.
14	know if we were 40 minutes into it from the	14	Q You are saying that that happened approximately
15	start to there, or if we were 30 minutes in	15	45 minutes into the start of the process, or
16	from the start to there. But it didn't seem	16	into the process; right?
17	that we were getting a viable vein, and that	17	A That's an approximation, but that's correct.
18	was pretty apparent, and we wanted to go and	18	Q Okay. Tell me what was discussed or what was
19	take a break.	19	said during that particular conversation.
20	Broom wanted to continue on. And we	20	A What we were discussing is we wanted to get
21	said, "No, we need to take a break. You need	21	information from the medical team there, and I
22	to take a break, we need to take a break, sit	22	saw that they were having problems. I wanted
23	up, if you want a drink of water or water,	23	to find out what was going on and if it
24	whatever, relax, go ahead and sit up. We need	24	happened on I couldn't really see this side,
25	to talk for a few minutes."	25	but did it also happen on the right side.

	Page 38		Page 40
1	And Team Member 21 acknowledged that it	1	it probably was.
2	was happening, the same thing was happening on	2	But at one point I don't know if it
3	the right side as was the left. We talked	3	was shortly after that or whatever he said,
4	about it and said, "Just take a break,	4	"You are going to have to double that
5	everybody relax, we are not on the clock, this	5	tourniquet up and give it a twist to make the
6	isn't a production where we have to get this	6	vein pop up." He actually did that himself.
7	done in X number of minutes. Take a break,	7	Q Okay.
8	everybody just relax, and then give the inmate	8	A And then they tried again for a little bit, and
9	a chance to relax, and we will see if we can	9	you could see that it just wasn't working.
10	make another attempt at it." Which after we	10	Q They being.
11	had our conversation, five, 10 minutes, and	11	A The medical team. I'm sorry. I should say
12	then we went back to make another attempt.	12	the number. No. 17. Actually No. 9 tried
13	At that point in time Broom started	13	again.
14	pointing out where the nurses made attempts to,	14	Q Okay.
15	like, draw blood or whatever. He was starting	15	A And No. 21.
16	to show different ones that might be a better	16	Q Okay.
17	vein.	17	A And then I think at one point No. 17 then
18	Q Okay. So your understanding of him pointing	18	relieved one or the other. I am not sure which
19	that out was that was where nurses in the past	19	
20	had had some level of success drawing blood	20	one. But then he made another attempt. And at
21	from him?		that point we could see it wasn't working.
22	A He said that heI can remember Broom's	21 22	Q Okay. Let's go back to the conversation during that first break.
23		23	
24	conversation because I was standing right there	24	A Okay.Q There was discussion that here's what's
25	when they went back up, and he was saying that	25	_
23	they had a hard time getting blood draws on	23	happening. At that point did anybody suggest
	Page 39		Page 41
1	him.	1	this is simply not going to be feasible today?
2	Q Okay.	2	A Actually, the Director and I talked with those
3	A And he said they have had success he pointed	3	team members, and we decided if the inmate
4	on this side here, I think, once. He said,	4	wants to go ahead, which he did, and wants to
5	"This here." (Indicating)	5	make future attempts or further attempts, then
6	Q For the record, "this here," you are talking	6	we will go ahead and try to establish an IV.
7	about	7	There is going to come a point in the near
8	A It would be on his left arm.	8	future where we are going to say it is not
9	Q Okay. On his left arm?	9	going to work and we are going to say we are
10	A On the forearm side. It would be from the	10	not going to go any farther, this can be done
11	elbow edge to the wrist edge. (Indicating)	11	another day possibly.
12	Q On the wrist, on the back side of it?	12	Q During that conversation did any of the Team
13	A On the back side of it. He said they had	13	Members, No. 17, 21 or 9, say point-blank,
14	success there before about halfway down.	14	"This isn't going to work, this guy has got bad
15	Q Okay.	15	veins," or anything like that?
16	A He pointed to that, he pointed to another spot	16	A That came on the second meeting.
17	on the back of his hand. (Indicating)	17	Q I am talking on the first one. Nobody said
18	Q Now you are pointing to your	18	anything like that?
19	A My right hand.	19	A They just indicated when I say "they," the
20	Q So it was the right hand on him?	20	team member, ones you just gave me the number,
21	A Yes.	21	they indicated that they were having a lot of
22	Q Okay.	22	difficulty because the veins weren't holding.
23	A And so he pointed out a couple of spots where	23	Q Okay.
24	he had success of doing a blood draw, and he	24	A And they were willing to make another attempt
25	said it was difficult for them, and obviously	25	if the inmate was willing to make another

	Page 42		Page 44
1	attempt, which he was. So that's when we went	1	conversation, okay. So it sounds like to me
2	back and made the next attempts.	2	and correct me if I'm wrong your testimony
3	Q Okay.	3	was the decision was it's tough but the
4	A And from that point we obviously realized this	4	inmate wants to continue, so we will keep
5	is not going to work, we are not going to get a	5	giving it some more cracks; is that correct?
6	viable vein, and we need two we need two	6	A No, I am not exactly sure where you are going
7	viable veins. We couldn't even get one.	7	with this. But let me explain it again in a
8	Q I need to clarify something a little bit here	8	little different way
9	for myself. You were in this conversation in	9	Q Okay.
10	J-1; right?	10	A that will help you out. We are not going to
11	A Yes.	11	just an inmate says to stop, okay, we are
12	Q And it was Director Collins, Regional Director	12	not just going to stop. He needed a break at
13	Voorhies, Warden Kerns, No. 9, No. 17 and	13	that point in time. We needed a break at that
14	No. 21; correct?	14	point in time. He wanted to continue. We
15	A Yes.	15	said, "No, we are going to take a break and we
16	Q You didn't bring Mr. Broom out to participate	16	want you to take a break." So we went and had
17	in that conversation?	17	our conversation.
18	A No.	18	The conversation is we can make a few
19	Q When you say that the inmates wanted to	19	more attempts, we can try to get another
20	continue, that's not something that he chimed	20	location and see if we can get a viable vein.
21	into that conversation about?	21	We went back after our discussion with the
22	A No. Right before we took our break, that we	22	Director and South Regional Director and three
23	went and had our discussion, he wanted to	23	team members, medical team members, and No.
24	continue on right then. And we said, "No, we	24	10 we went back, started up again, and made
25	are going to take a break, you need to take a	25	an attempt. And at that point in time we
	Page 43		Page 45
1	break, we need to take a break. Sit up, relax.	1	realized that this isn't going to work.
2	We need to take a little break here, take five	2	Q Okay. I guess just for a real quick
3	minutes or whatever."	3	clarification then, when you say the inmate
4	He sat on the bed, the door was left	4	wanted to continue, that was when he was faced
5	open, I guess. The security staff was there	5	with the choice of continue right now or take a
6	and he was sitting up on the bed and he took	6	break; is that correct?
7	his break and he went back and talked.	7	A When we said we were going to take a break, he
8	Q Okay. But would it I realize this might be	8	wanted to continue.
9 10	speculation. In your opinion, had he been	9	Q Rather than take a break?
11	given the choice of keep making repeated attempts or stop, given those two options, what	10 11	A Right. Q What did he say, if you remember?
12	do you think he would have chosen?	12	A We told him that we were going to take a break
13	A I don't know how to answer that one, to be	13	and we wanted him to take a break, and he
14	honest with you.	14	wanted to continue on.
15	Q Would it be reasonable to assume that he would	15	Q Right. But, I mean, what did he say, though?
16	say "stop"?	16	A He wanted to continue.
17	A It would be reasonable to say, unless we knew	17	Q He said "I want to continue" or
18	for sure that we couldn't get a viable vein.	18	A Yes.
19	We made some attempts, but I think that there	19	Q Did he explain why?
20	is a point where we make a reasonable attempt	20	A He just wanted to get it over with. You know,
21	to get veins and he is wanting to continue.	21	that was his words. He said, "I want to
22	Q Right. But I am saying it sounds to me	22	continue on and get this over with."
23	like, hey, the inmate wants to continue so we	23	Q Why do you think he wanted to get it over with?
24	will continue with a couple more attempts at	24	A I don't know.
25	this point. This is during the first break	25	Q Okay.

	Page 46		Page 48
1	A I could speculate all day long on that, but	1	took another break. And we went back in J-1.
2	that's all it would be.	2	Team Member 21,10, 17 and 9, I believe it is,
3	Q So we have our conversation during break one,	3	we went back with the Director, South Regional
4	the team goes back, medical team goes back into	4	Director went back and had conversation. I
5	the room. How long would you say that break	5	think there was a point when Rosie Clagg was
6	was?	6	there, also, and I think that might have been
7	A I am going to say 10 or 15 minutes.	7	the point that she was in that meeting, also.
8	Q Okay. So they go back in the room. What did	8	Q Conversation during the second break?
9	you do?	9	A Yes, I believe so. And I I believe at that
10	A The Director and I talked. We talked about it	10	point in time we felt that it probably wasn't
11	and I expressed one of my concerns to him, and	11	going to work. And
12	my concern was if we can't if we can't get a	12	Q When you say "we," do you mean you?
13	viable vein and we have made a good faith	13	A No. The medical team members, myself, the
14	attempt on this second try and so on, then we	14	Director and so on. We thought that perhaps we
15	need to probably take a look at calling this	15	weren't going to get a good viable vein.
16	off for the day.	16	We I asked Rosie if our doctor would
17	Q Okay.	17	come over and take a look and see if we are
18	A My other concern is I don't want to get this	18	missing something or if there is a vein that,
19	inmate on the table and then we start Drug 1	19	you know, she thought might work and so on and
20	and we blow a vein out, and then switch sides	20	that we missed it. And so she did come over,
21	and we blow that out. We've got a guy started	21	brought her over to the Death House. I later
22	with Drug 1 with partial on this side blown	22	learned that she made an attempt to do an IV.
23	out, and partial on this side blown out. I	23	But she was supposed to come over and just take
24	expressed that concern. And I think we were	24	a look and let us know what she saw.
25	all in agreement on that after knowing how many	25	Q Okay. Was that a surprise to you, that the
	Page 47		Page 49
1	times we actually got a good vein but it just	1	doctor had made an IV attempt?
2	wouldn't hold.	2	A Yes, it was. Because we told her, "Don't get
3	Q Okay.	3	involved, we just want to know if you see
4	A And after they made a few more attempts in the	4	something we are not seeing."
5	room there, the medical team made a few more	5	Q Okay.
6	attempts in the room and said they were getting	6	A I personally told her that and so did the
7	the same results. Shortly after that, we made	7	Director. Basically the conversation is we are
8	the decision it was time to stop, brought the	8	not asking you to get involved as far as doing
9	medical team back into J-1, talked about it.	9	that, just take a look at that and see if you
10	Q This is after approximately how long then?	10	see something that we are missing.
11	You had your break, a 10 to 15-minute break,	11	Q When did you have that not you and Director
12	the medical team goes back in, and they work	12	Collins when did you have that conversation
13	for approximately how long?	13	with the doctor?
14	A You know, I was talking with the Director a	14	A When she arrived in J-1.
15	couple of times during that, and I walked in	15	Q Okay. So that was while she was still in J-1?
16	there once or twice. I don't know, 35, 40	16	A Yes.
17	minutes maybe.	17	Q What about when Director Collins talked to her?
18	Q Okay.	18	A He was right beside me when we talked to her.
19	A Just a guesstimate.	19	He said, "We don't want you to do anything,
20	Q Okay.	20	just look."
21	A But when we realized it's not working	21	Q Now, the idea was to have somebody other than
22	Q When you say "we"?	22	9, 17 and 21 take a look; right?
23	A Medical team.	23 24	A Yes.
24	Q Okay. A They said "We can't get it to hold " so we	25	Q Somebody who was kind of like a higher
25	A They said, "We can't get it to hold," so we	23	qualified or a higher trained medical person;

	Page 50		Page 52
1	right?	1	Q Tell me a little bit about those conversations.
2	A Yes.	2	This is after the second break, right, and they
3	Q Okay. And you asked Nurse Clagg to make that	3	are making further attempts; correct?
4	contact to the doctor?	4	A Yes.
5	A Yes.	5	Q Tell me about those conversations that you just
6	Q Okay. Did you ever think about asking Nurse	6	referred to?
7	Clagg to do that task instead?	7	A Pretty much I said it before. The conversation
8	A Actually, I think Nurse Clagg was I don't	8	was if it looks as if we can't quickly
9	know which one she was viewing from up near the	9	establish a viable vein, then we are going to
10	holding cell. I think she was up there, but I	10	go ahead and contact the Governor and let him
11	don't know how long or which one she was, but I	11	know that we are going to put it on hold for
12	think she actually took a look.	12	now. We are going to discuss one last
13	Q So you saw Nurse Clagg up there taking a look	13	discussion with the medical team, and then we
14	before the doctor came in?	14	will call him back.
15	A I think she did. I think she went up there,	15	Q Okay.
16	but I didn't see her because I was still	16	A And that's what we did. Our last discussion,
17	talking to the Director about the direction we	17	we sat them down and said, "Is this going to
18	might be going here in the real near future.	18	work today?''
19	Q Okay. On what basis do you think she went up?	19	And the answer was "no" from all three of
20	A I think she made comment that she would take a	20	them.
21	quick look before someone called the doctor.	21	Q Okay.
22	Q You think that she made that comment or you	22	A And at that point in time we made our decision
23	remember her making that comment to you?	23	to call the Governor back and say, "This isn't
24	A As I recall it, I think she made that comment	24	going to work today."
25	to me.	25	Q Okay.
	Page 51		Page 53
1	Q You think she made that comment or that's your	1	A And I don't know what that conversation was
2	best recollection?	2	between the Director and the Governor, but the
3	A Let me re-word it.	3	Director went back and called him back, and
4	Q You understand I need to get specifics?	4	then we got the seven-day reprieve?
5	A Well, when I say "I think," I will just say	5	Q Okay. And was that what was the origin of
6	that's my best recollection.	6	the seven-day part of all of that?
7	Q Okay.	7	A I don't know. I don't know if that came from
8	A Because I had a hundred things going on that	8	the Governor's attorney. I don't know exactly
9	day, and then also this issue at the same time,	9	where that came from. I just know that was
10	okay.	10	what I was verbally told, and then shortly
11	Q Okay.	11	after that we got it by fax that he got a
12	A So, as I recall.	12	seven-day reprieve.
13	Q Okay. And did you know or find out any results	13	Q Okay. So during the conversation, I guess, if
14	from any assessment that Nurse Clagg did?	14	I can classify them, we have got Conversation
15	A No. I just she came back in and went ahead	15	1, or Team Conversation 1, which is at the
16	and called the doctor over I think she was	16	first break. We will call it that, okay?
17	there for a short time. I don't know how long	17	A (The witness nodded affirmatively.)
18	she was there.	18	Q We have got and that's about 45 minutes into
19	Q When you say "she," you are talking about the	19	the process?
20	doctor?	20	A Yes.
21 22	A Nurse Clagg. I don't know how long she was out there for sure, because I was out talking with	21 22	Q All right. A Yes.
23	the Director and Mr. Voorhies about possible	23	Q I just need to write this down so I don't
24	options in the real near future, where we need	24	team
25	to go with it.	25	(A cell phone ringer sounded at this time.)
ر2	w go with it.	L ²	(11 con phone imger sounded at tills tille.)

	Page 54		Page 56
1	MR. BOHNERT: Go off the	1	break. She took a look and then she went and
2	record for a second.	2	called the doctor for us to come over.
3	(A recess was had at this time.)	3	Q So she may have participated in maybe the
4	Q (By Mr. Bohnert) Okay. We are back. Before	4	second team conversation?
5	we took a break I was just trying to get an	5	A Yes.
6	idea we started the process after about 45	6	Q Was she there also for the third team
7	minutes, you think; we had a break; we had the	7	conversation?
8	first team conversation with all of the members	8	A I don't recall her being there.
9	that we talked about there. Right?	9	Q During the third team conversation, at that
10	A That's correct.	10	point it's my understanding if I am
11	Q And then went back in, the medical team went	11	understanding you correctly, at that point is
12	back in, continued further attempts, and how	12	when you discussed the reprieve possibility;
13	long approximately are you saying that you	13	right?
14	think it was between I know you said you	14	A At that point, that's when we said we are not
15	were busy during that point in time, but	15	going any farther.
16	approximately how long were they working during	16	Q Okay. It was the second team conversation
17	the second time that they went back in?	17	where the reprieve was first discussed with the
18	A This is just a guesstimate, but I think	18	whole team?
19	somewhere between 20 and 30 minutes.	19	A No. I discussed that with the Director. It
20	Q So 20, 30 more minutes, and then you said,	20	wasn't discussed with the whole time. After
21	"Take a break," or, I mean, who suggested	21	they went back in I mean after the break and
22	taking the break at that point?	22	they went back in the Director and I talked
23	A At that point I think I suggested taking	23	about it; if we can't get this we need to look
24	another break and come out then. That's when	24	at doing a reprieve, postponing this and doing
25	the doctor arrived over there at the J-1.	25	it another day.
	Page 55		Page 57
1	Q Before the break?	1	Q Okay.
2	A I believe before the break, if I recall.	2	A And when they came out on the actually it
3	Q Okay.	3	was the last break. We didn't go back in after
4	A And then we had her go look.	4	that. It was a time to meet with the medical
5	Q Okay.	5	team that you had mentioned earlier, plus
6	A And then they made I think the idea was to	6	No. 10, and Mr. Voorhies, the Director and
7	make one or two more attempts. If it didn't	7	myself.
8	work, then we are stopping.	8	The conversation went like this, "Don't
9	Q So you have the break after the doctor is	9	tell me what you think I want to hear. Tell me
10	there. There is another team conversation;	10	what I need to hear."
11	right?	11	From all three team members, all three
12	A Yes.	12	team members agreed, we can't get this today.
13	Q And that's you, Collins, Voorhies, No. 10,	13	At that point in time we said we are stopping.
14	No. 9 and No. 17 and No. 21; right?	14	Q I guess, my question is before the first
15	A Yes.	15	discussions of a reprieve between you and
16	Q And then you said you made a couple more	16	Director Collins, had there been any
17	attempts after that second team conversation;	17	solicitation of thoughts or feelings from the
18	right?	18	medical team as to the viability of or the
19	A Yes. Yes, sir.	19	feasibility of establishing IV access on
20	Q And then was there a third team conversation	20	Mr. Broom at any point, whether seven days from
21	that would be, again, that whole large group?	21	now, 14 days from now, anything at any point at
22	A Yes.	22	that point? Had there been any kind of what
23	Q And you said at one of those Nurse Clagg was	23	is your thoughts on this? Do you understand my
24	involved, as well?	24	question?
25	A I don't think that was right after the first	25	A Yes, I do. I am sitting here recalling.

Page 58		Page 60
1 Q Okay.	1	what the based on anything, but did you
2 A Sitting here recalling. And as I answer this	2	have an understanding of why the medical team
one, I will be a little slow. I think it was	3	was having difficulty establishing an IV site?
4 on that final break, when we had our final	4	A I think from what I understand from what
5 break, and we were talking with the team about	5	they are telling me is that he wasn't drinking
6 is this going to work today, tell us what we	$\frac{1}{6}$	any liquids at all.
7 need to hear, not what we want to hear. You	7	Q When you say "we"?
8 know, don't think that, just tell us like it	8	A Our medical team.
9 is. And their comment was, "I don't think I	9	Q Meaning?
10 can get it today and I have a question if I can	10	A 17, 9 and 21.
get it seven days from now."	11	Q Okay.
12 Q So the seven days was not at the suggestion or	12	•
13 the initial consideration of the seven days	13	A He wasn't drinking liquids. He has dehydrated himself pretty much, as I understand it, and
•	14	
was not at the suggestion of the medical team		they weren't gaining access because the veins
15 members, was it?	15	were smaller and collapsed and so on. Somebody
16 A No, it wasn't.	16	mentioned being an IV drug user. I didn't hear
17 Q That seven days arose during the conversation	17	that from him.
between you and Director Collins; is that	18	Q From "him" being?
19 right?	19	A From the inmate, from Inmate Broom. I didn't
20 A He had already talked with the Governor that	20	hear that from him. That was like second,
21 this is a strong possibility that we are going	21	third-hand and a day later.
22 to have to ask for a reprieve, and I guess the	22	Q Okay. So the information about the
conversation must have been seven days because	23	dehydration, that was also about him not
24 the Director mentioned seven days.	24	drinking anything, that was also second-hand or
25 Q Do you know if he suggested that?	25	third-hand information, or you knew that to be
Page 59		Page 61
1 A I don't know. I wasn't privy to the	1	personally
2 conversation.	2	A That was second-hand information. That was
3 Q Okay.	3	what I was told by the medical team.
4 A So I have no idea. I just know that he told	4	Q And that was during these breaks in the
5 the team members, "Tell me what is going on and	5	conversation during the breaks in the
6 can we make this work today."	6	process?
7 And I said the same thing, "Don't hold	7	A Yes.
8 back because we need to know."	8	Q That was not okay. So do you know what the
9 Q Okay.	9	basis for their understanding of this not
10 A And that's when they told us, "It's not going	10	drinking anything, do you know where they came
11 to work today." And the question was the	11	by that information?
comment is we have a seven-day reprieve. And I	12	A Actually, I think that they asked him, I
13 think No. 17 and No. 21 mentioned, "I don't	13	believe, but I can't tell you for sure because
14 think it is going to work seven days from now,	14	I wasn't really right there if they did ask
you know, if something doesn't change. If he	15	him. They asked him if he had been drinking
doesn't become hydrated or whatever, I don't	16	and he said he hadn't been drinking fluids.
17 think it will work seven days from now."	17	Q So you don't know that, but that is your
18 Q Okay.	18	understanding of it?
19 A That was the end of the conversation,	19	A I don't know that. I know the day after he
20 basically. And the Director went back in and	20	wasn't drinking anything.
21 talked to the Governor, and shortly after that	21	Q Okay.
he told me he has got a seven-day reprieve and	22	A He just let it pile up, you know. I mean,
we will be getting that in writing here real	23	there was fruit juices and so on, and think
24 shortly.	24	there was 21 of them in the cell.
25 Q Okay. Did you have an understanding, based on	25	Q Okay. But that was the day after?

	Page 62		Page 64
1	A Day after.	1	Q Okay. During any of those conversations you
2	Q Okay.	2	mentioned, you know, conversations were about
3	A So I can't give you a good for-sure accurate	3	what the options were, were there alternative
4	answer other than what they told me.	4	access methods or techniques that were
5	Q Okay. So did any of them opine as to whether	5	discussed or raised by anybody?
6	it would be possible 14 days from then or at	6	A I think I think that somebody mentioned
7	any point beyond seven days?	7	trying trying a jugular. We are not we
8	A The only conversation that I was involved in	8	don't have the equipment to do that.
9	was the last conversation, when 21 and 17 said,	9	Q Okay.
10	"I don't know if this will work even a week	10	A And there was mention of the vein that goes
11	from now if he doesn't get hydrated."	11	across the chest. I don't know the name of it,
12	Q Okay.	12	but that
13	A That's the only conversation that I had with	13	Q The one up here? (Indicating)
14	them about that.	14	A that goes across, yes.
15	Q And that's you are pretty sure that that's	15	Q Subclavian?
16	you are sure that that's pretty much an	16	A Subclavian.
17	accurate statement of what they said?	17	Q Okay.
18	A It is not going to happen seven days from now	18	A Yes. That was mentioned, but that one also is
19	unless he gets hydrated, yes.	19	a little risky to do.
20	Q So was it your understanding that in seven days	20	Q Okay.
21	if Broom was hydrated, there would be no	21	A So we didn't make either attempt.
22	problems?	22	Q Okay. Was that something that would have been
23	A You don't know that until you start it and try	23	feasibly considered?
24	it.	24 25	A It could have been considered.
25	Q Okay.	23	Q Okay. Why was a decision made to not go to
	Page 63		Page 65
1	A There is no way of knowing until you	1	that? You said the jugular, you said you
2	Q It is your understanding that that was what	2	didn't have the equipment; is that right?
3	they were thinking?	3	A I don't think we had the equipment to handle
4	A I am not sure. I can't tell you what they were	4	that, the proper needles to handle that, and I
5	thinking. All I can tell you is what they told	5	don't know if any of our staff has done that.
6	me that day, and that's pretty much it.	6	And if they haven't, we are not going to do it.
7	Q I guess I am that's not quite my question.	7	Q If they haven't done it in what context? In
8	My question was was it your understanding that	8	execution context?
9 10	their thinking was that this was okay so long as he was hydrated? Was that what you	9	A In the context of any medical context whatsoever. If they haven't done that and
11	interpreted them to be saying?	11	aren't proficient in that, that's not something
12	A That's what I interpreted the seven-day thing	12	I think we are going to try.
13	to mean, is if he got hydrated between now and	13	Q Okay. So if, hypothetically, if No. 21 or 17
14	seven days from now it might be successful, but	14	had done a jugular before or had done
15	who knows until you actually try.	15	subclavian insertion or injection I am not
16	Q Okay. At any point during the conversation,	16	sure of the terminology if they had done
17	the conversations, I guess, with you and	17	that procedure before in their capacity as EMTs
18	Director Collins and/or regional Director	18	outside the prison, would that have been okay,
19	Voorhies and was Andrew Stout there involved	19	let's go ahead and try it here?
20	in any of these conversations?	20	A No. Because I think the subclavian I
21	A Yes. Yes, he was.	21	actually think that takes somebody that has
22	Q And in all of these that everyone else	22	medical skills to actually make a cut and then
23	participated in?	23	do an insert, and our staff obviously is not
24	A I think he was there for the last one and maybe	24	going to do that.
25	one other one.	25	Q Okay. So, I mean, I guess I am a little

	Page 66		Page 68
1	confused because you said that because they	1	anything?
2	didn't have any experience doing it in any	2	A When I said that the doctor came over and said
3	medical procedure you wouldn't do it. But I am	$\frac{2}{3}$	she would take a look, and she mentioned around
4	saying if they did and it just wasn't in the	4	the ankle area, that she could check that area
		5	there and see if that's a viable vein, and that
5	rehearsals here, if it was something else, but	$\frac{3}{6}$	was it.
6	if they had that experience but it wasn't in	7	
7	the execution context, would that have been	8	Q Okay. But anything other than peripheral IV access? Do you know what I mean by peripheral
8	sufficient in your view?	1	•
9	A No. No. When you are talking about that, I	9	IV? A Yes.
10	think you are actually talking about making a	10	
11	cut on the chest area and then getting the	11	Q Anything beyond that? A No.
12	vein. That's not something we are going to try	12	
13	here, no. And the idea of going into the	13	Q That was ever raised or considered in that
14	jugular vein, I don't see us doing that.	14	context with those discussions?
15	Q Okay. Do you know if it was a jugular that was	15	A No.
16	eventually used for the Clark execution?	16	Q And you say it was just Director Collins who
17	A I wasn't here. I couldn't tell you what was	17	talked on the phone with the Governor; is that
18	used.	18	correct?
19	Q So beyond in those conversations where those	19	A Yes.
20	subclavian and jugular were raised, were those	20	Q And you don't know if he actually talked with
21	conversations that included the team members,	21	the Governor or if he was just talking with
22	the medical team members?	22	counsel from the Governor?
23	A I think that 17 and 21 were there when we	23	A I can just tell you what he tells us. He was
24	talked about that.	24	talking with the Governor.
25	Q Okay.	25	Q All right. At any point did you talk with
	Page 67		Page 69
1	A And that was a short conversation because we	1	anybody from the Governor's office?
2	realized that's not something we can do here.	2	A Earlier that day I talked to Joe Torres.
3	It was mentioned that that's been done before,	3	Q Jose Torres?
4	not in this context and not what we do as far	4	A Yes. I talked with Jose earlier that day, and
5	as the death penalty. It has been done in	5	he said they would be faxing the results of if
6	hospitals before. That's not something we can	6	there was going to be a stay or not and that he
7	do here.	7	would let us know as soon as he found out.
8	Q Okay. So were there any other alternative	8	Q That was before the execution process started?
9	procedures proposed or suggested, talked about,	9	A That was before the process or the
10	discussed, during those conversations that	10	preparation process even started. That was two
11	included 21 and 17?	11	hours, three hours before that, probably 8,
12	A No. We have our procedure and what we do. And	12	8:30 in the morning.
13	outside of that, we're not going to go outside	13	Q But from the time you read the death warrant
14	of that.	14	on, you never talked to anybody from the
15	Q By procedure, do you mean the written policy?	15	Governor's office?
16	A Affirm. Our policy, 01-CON-11, that's our	16	A No.
17	guidelines, that's what we go by. And when we	17	Q Did you have a chance to talk with anybody from
18	realized we can't get a viable vein today, we	18	the Attorney General's office other than
19	followed policy and we stopped.	19	Mr. Stout, who was there physically present?
20	Q During the conversation that did not involving	20	A No.
21	21 and 17, the conversation with you, Director	21	Q Okay. Do you know if Director Collins talked
22	Collins, Regional Director Voorhies, you	22	with anybody from the Attorney General's
23	know, during those conversations were there any	23	office?
24	other additional, you know, alternatives	24	A I don't know.
25	suggested or considered or proposed, rejected,	25	Q You don't know that he did, but you don't know

	Page 70		Page 72
1	that he didn't; right?	1	myself, and we were I was talking with
2	A I don't know.	2	Rosie, Director Collins was talking with Rosie,
3	Q Okay. Give me just one second. Do you	3	and at that point the idea was brought up by me
4	remember who first raised the idea of asking	4	about having the doctor come over and take a
5	Dr. Bautista to come and take a look and be	5	look and give us a little assessment to see if
6	over there?	6	we are missing something, see if there is
7	A Who came up with that idea?	7	something else we can do. That all happened in
8	Q Who first raised that idea?	8	J-1 and the three of us were together when we
9	A I did.	9	were talking about that. I don't recall anyone
10	Q You did?	10	else being there other than the three of us.
11	A Um-hum. (Affirmative)	11	Q Okay. What was Director Collins' reaction to
12	Q And who did you share that with initially? Do	12	your suggestion?
13	you remember?	13	A His reaction was affirmation, yes, let's have
14	A Rosie Clagg. I asked her to call the doctor to	14	her come and take a look. Shortly after that
15	come over and see if she can take a look.	15	she did arrive. Before we let her go in and
16	Q Was that decision ever something that was	16	take a look, we told her Director Collins
17	discussed with either Director Collins or	17	told her, I told her, ''Don't get involved, all
18	regional Director Voorhies?	18	you have to do is take a look." And Rosie was
19	A Director Collins and I discussed that, and I	19	there when she was told that.
20	asked Rosie to call her and have her come over.	20	Q Okay. What was Regional Director Voorhies'
21	Q You discussed with Director Collins I'm	21	reaction when you raised the suggestion for the
22	sorry, go ahead.	22	first time?
23	A I discussed that with Rosie, and the Director	23	A I don't think he was there in that conversation
24	was standing right there, and we just wanted	24	that the Director and I was having with Rosie.
25	her to take a look. And, again, we told Rosie,	25	Q I am confused. Now, your recollection is that
	Page 71		Page 73
1	"I don't want her to get involved, just take a	1	it was you and Director Collins and Rosie
2	look."	2	Clagg?
3	And so Rosie invited her over and asked	3	A Yes.
4	her to come over. She did. And then she went	4	Q Okay. So there wasn't anybody else there?
5	out and took a look and then did what she did.	5	A Not that I recall.
6	Q Okay. But I guess my question is, is the first	6	Q Okay. What was Rosie's reaction when you
7	time that Director Collins or Regional Director	7	raised that idea for the first time?
8	Voorhies heard about this idea of having the	8	A She was okay with asking the doctor if she
9	doctor come over and help out, it was the first	9	could come over and take a look.
10	time that happened simultaneously with you	10	Q Okay.
11	asking Rosie Clagg to make the phone call?	11	A And then she went ahead and made the call, and
12	A Pretty much. I mean, we were talking, just	12	subsequent to that the doctor showed up.
13	talking about her Rosie having a doctor come	13	Q Okay. And neither of them thought that, you
14	over and take a look at it, and we agreed that	14	know or had any kind of second thoughts or
15	let's have her look at it and see if there is	15	second guesses on that?
16	anything else we missed or anything that she	16	A They weren't going to get involved in it
17	saw that we could do differently. And I asked	17	because of the medical issue with licenses and
18	Rosie to go ahead and call her, and that pretty	18	so on, Hippocratical Oath, of getting involved.
19 20	much all happened at the same time.	19	They were both told, "Don't get involved, other
20 21	Q When you say "we decided," you are talking there was first a conversation with you and	20 21	than just take a look." Q But I'm saying neither one of them, Rosie Clagg
22	Director Collins where you raised the idea with	22	or Director Collins, neither one of them voiced
23	Director Collins, let's have the doctor take a	23	any concerns or questions about involving the
24	look?	24	doctor; is that correct?
25	A Actually it was Rosie, Director Collins and	25	A As far as concerns, I am guessing
	11 11000011 11 Was 10010, Director Collins and	1_2	11 110 Int no concerno, I am guessing

	Page 74		Page 76
1	Q Well, just, saying, hey, hold on, let's think	1	reports. We never got to the point where we
2	about this for a second, or anything like that.	2	had a problem, had a blowout or something like
3	I mean, it is you raised the idea, they agreed,	3	that. We never got to that point. We never
4	boom, we make the phone call?	4	got to the point of even getting an IV started,
5	A Um-hum. (Affirmative)	5	so it is what it is. So we never got IV access
6	Q Okay.	6	started, so we never got off ground zero.
7	A And then, as I said, after the doctor got there	7	Q So the thought never crossed your mind that
8	we told her, "Don't get involved, take a look	8	there might be some people who are going to be
9	and let us know if there is anything we can	9	interested in what happened here?
10	do.''	10	A There always is people interested in what
11	Q Okay. Are you typically the person who orders	11	happens here, obviously.
12	incident reports to be filled out?	12	Q Right. Right. So I guess my question is, you
13	A As far as I guess I am not following your	13	know, I mean, my understanding here is you are
14	question.	14	saying that there was no reason you didn't
15	Q Well, if you think back with me for a moment	15	think there was any reason to fill out an
16	I guess you wouldn't have known because you	16	incident report; correct?
17	weren't here. Following the Clark execution a	17	A Really there is not because we had a timeline,
18	while back, there was a thick stack of incident	18	we had a conversation. Now here we are the day
19	reports that were filled out by every member of	19	of the deposition, I don't know what the rest
20	the team who was there, by everybody who was	20	of them said but I am telling you how it went,
21	there, okay, their observations, their	21	and there really wasn't any need to write an
22	recollections of what happened; right? Do you	22	incident report.
23	follow?	23	We just couldn't get the IV access even
24	A Um-hum. (Affirmative)	24	started, so we never got past step one or
25	Q Yes?	25	really into the preparation stage, where we are
	Page 75		Page 77
1	A Yes.	1	ready to go in and walk into the chamber. We
2	Q Okay. It's my understanding that somebody	2	never got to the point to where we could even
3	orders somebody else to do those incident	3	start that.
4	reports; is that accurate?	4	Q Okay.
5	A That's accurate.	5	A So we didn't have what you would call a big
6	Q Okay. Would you be the person to issue that	6	incident. We just had we couldn't get IV
7	order for everybody who was present to fill out	7	access started. Clark, I don't know what
8	an incident report?	8	happened with Clark. I wasn't here. I
9	A That could have been Team Member 10. Team	9	understand that he was actually on the table
10	Member No. 10 could have ordered like I	10	Q Okay.
11	said, I wasn't here for Clark, I don't know who	11	A as I understand it, and then things
12	ordered it. Major, myself, could order folks	12	happened. I don't know what all happened, but
13	to write incident reports.	13	then they had to do some adjustments and start
14	Q Okay. So following the Broom incident on the	14	another IV. That's a different situation.
15	15th of September, you didn't order anybody to	15	Q Okay. Well, whether it's a different situation
16	fill out an incident report, did you?	16	or not, would you agree with me that what
17	A No.	17	happened with Mr. Broom, to the best of our
18	Q Why not?	18	knowledge, is pretty unique and pretty rare in
19 20	A We never got started into the execution	19	the execution/death penalty context? Would you
20 21	process. We were in the preparation stage and never went beyond it. And my medical staff	20 21	agree with me that that was a pretty rare occurrence?
22	· · · · · · · · · · · · · · · · · · ·	22	
23	made their good faith attempts and wasn't successful, and we met three times and we all	23	A For my experience, this would have been the seventh one I was involved in. All previous
24	agreed that we can't make this work today. And	24	six went well and it was all accomplished
25	there was actually no reason to write incident	25	correctly. This one here we couldn't get the
	mere was actually no reason to write includin	23	correctly. This one here we couldn't get the

	Page 78		Page 80
1	IV started, and it was what it was. We just	1	personal view on it as far as what I saw and
2	couldn't get it started.	2	what they told me. If we would have tried that
3	Q Okay. So I guess when I am saying rare, I am	3	on the 22nd and we tried four or five needle
4	talking about somebody actually walking out of	4	sticks and we kept having veins blow up, I
5	the holding cell at the end of the day on which	5	think right then would have been the time to
6	they were scheduled to be executed rather than	6	call it off on the 22nd because nothing changed
7	being taken out? You know, not living, I	7	from the 15th, so why go on.
8	guess. Would you agree that that's a pretty	8	Q So you are saying four or five on the 22nd.
9	rare occurrence?	9	Why would that have been any different, as far
10	A Yes.	10	as enough-is-enough point of four or five, than
11	Q I guess just on a larger, kind of bigger scale,	11	on the 15th when 18 or 19 sticks were made?
12	in the two weeks or I guess or	12	A Well, that question just answers from my
13	two-and-a-half weeks, whatever we are past	13	point of view, you just answered my question
14	September 15th now, have you had an opportunity	14	for me. Because we tried 18 or 19 attempts on
15	to kind of reflect on what happened on the	15	the 15th and we didn't get it. The veins
16	15th? Have you thought about it at all?	16	the medical team didn't make it work. The
17	A Yes.	17	veins continued to bulge, and my medical team
18	Q And have you thought about what might have	18	says seven days from now it is probably going
19	happened on September 22nd if the reprieve had	19	be to the same thing.
20	expired and you would have been right back in	20	Why would you want to go 18 times at that
21	the situation of attempting to execute	21	point? I think at that point we would have to
22	Mr. Broom again?	22	say, look, five or six tries and it doesn't
23	A I thought about it, but I again, until you	23	work, getting the same results as we did on the
24	actually make that attempt you don't know	24	15th, it is time to stop, this isn't going to
25	what's going to happen.	25	work.
	Page 79		Page 81
1	Q I mean, I realize you can't enlighten me.	1	Q But five or six the first time around would
2	What did you think? What have you thought?	2	have not been enough to raise those same
3	What are you thinking?	3	questions?
4	A From the 15th to the 22nd, I thought about it	4	A I think I said it earlier, Broom wanted to
5	several times and reflected on what the team	5	continue on just like we did, and was pointing
6	was saying, that this probably won't work seven	6	out, try this, try this, and this one here
7	days from now if he doesn't hydrate himself.	7	might work better, and so on, on the left arm.
8	My concern is in seven days from now he doesn't	8	You know, we tried to do it the best we
9	hydrate himself.	9	could do it on that day, and he was wanting to
10	Q Okay. Were those concerns ever relayed to	10	continue on just as we were. The only time
11	anybody else by you?	11	that I realized that he was becoming frustrated
12	A No, just my thoughts.	12	was towards the end.
13	Q Did you ever have any concerns or questions	13	Q What do you mean?
14	about what happens if we aren't able to	14	A He was becoming frustrated towards the end. I
15	establish IV access again on the 22nd?	15	wasn't there. As I understand it, the doctor
16	A I think we just follow policy again. If we	16	attempted to make a needle stick in the ankle.
17	couldn't establish it, we are going to have to	17	Q Okay.
18	call it off again.	18	A And he became frustrated after that and had a
19	Q And would you consider I guess we talked	19	few tears from it.
20	about this earlier, but maybe now it is a	20	Q What do you mean he became frustrated? I'm
21	different context. At what point on the 22nd,	21	trying to understand.
22	a hypothetical thing going forward on the	22	A He actually started crying, and he was
23	22nd, at what point would you have said, all	23	obviously worn out, our team was worn out.
24	right, we are going to stop this again?	24	And, you know, there is no need to go beyond
25	A I am just saying it this way. This is my own	25	that.

	Page 82		Page 84
1	Q Okay. So after 18 or 19 needle sticks would it	1	And his last statement kind of reflected that,
2	be reasonable to think that he was probably in	2	apologies and so on. He wanted to move forward
3	pain at that point?	3	with it. I actually think Broom in his mind, a
4	A You know, I wasn't there for all of the needle	4	different way, but in his mind he was probably
5	sticks. The ones that I was there for he had	5	ready to move forward, just from his
6	no reaction to them. As I understand it, when	6	verbalizations. He was ready to get this
7	the attempt was made in the ankle, that he did	7	over with.
8	feel that and did react to that, you know,	8	Q Okay. But when you said he wanted to continue,
9	saying that it hurt a little bit. And but I	9	I guess I'm so you thought about kind of,
10	wasn't right there when they did that. That is	10	you know, the issue of dehydration and doing it
11	just second-handed information.	11	on the 22nd in the days following the 15th;
12	But for the ones that I was there on, he	12	right?
13	was laying there, didn't flinch and, you know,	13	A Um-hum. (Affirmative)
14	he would ask them if it was good and they would	14	Q The TRO gets entered that says we are not going
15	respond no. The medical team would respond	15	to do it on the 22nd?
16	back, no, it wasn't, we have got to try again	16	A Right.
17	someplace else. But he didn't show any pain,	17	Q At that point then, from then until you sit
18	didn't reflect any pain, didn't complain of any	18	here today now, have you had any other thoughts
19	pain on the ones I saw.	19	about what might happen or what can happen,
20	Q Now, you testified just a minute ago that	20	what else would we do with Mr. Broom?
21	Mr. Broom just wanted it to be over; is that	21	A No. Because this has been put on hold, and I
22	right?	22	think November 30th we have until
23	A Yes.	23	November 30 to make a decision or this will end
24	Q I don't want to put words in your mouth.	24	up in court. And I haven't given it much
25	A Yes.	25	thought, about what we are going to do, until I
	Page 83		Page 85
1	Q Is that right?	1	know what date we are going to have if we have
2	A That's right.	2	a date.
3	Q Why I mean, I know you have testified that	3	Q Okay. Well, at this point you have an
4	you think that based on what he said. I am	4	execution scheduled that's at this point
5	asking you why do you think he wanted it to be	5	scheduled to go forward next Thursday; is that
6	over?	6	correct?
7	A Why do I think?	7	A That's correct.
8	Q Yes.	8	Q And have you given any thought to what if
9	A I think he has been on death row for, what, 25	9	Mr. Reynolds presents the same problem?
10	years?	10	A Well, we are going to follow policy, just like
11	Q As far as I know.	11	we did this last time. And if we can't get an
12	A And then he thinks he has a possibility of a	12	IV started and we can't go forward, that is
13	stay of execution, and that goes flat and he	13	just the short and simple of it, we can't go
14 15	doesn't get it, he is denied, and now we are	14	forward.
16	into the point where we're inserting needles in preparation to do the execution process. And I	15 16	Q Would you go two hours and 18 or 19 needle punctures with Mr. Reynolds?
17		17	A Who would know until we actually make that
18	think probably he was at the point at that point he is I think there is a mindset folks	18	attempt?
19	get. There is a point where you know you are	19	Q I am asking you. Hypothetically, if you are
20	going to go beyond this and the execution is	20	having problems establishing IV access for
21	going to get carried out, and I just think that	21	Mr. Reynolds next Thursday, is it going to be
22	that's where the inmates get. I have actually	22	the same thing, that it will be two hours or
23	seen Getsy I will use that for a example.	23	four hours? You know, at what point in that
24	He was totally prepared, mentally	24	situation have you thought about what the
25	spiritually. I think he was totally prepared.	25	procedures might be?

	Page 86		Page 88
1	A No. That's something that I would rely on our	1	through that whole process. It would have to
2	medical team, if they encountered exactly the	2	be documented, added to the policy. We are not
3	same thing, but everybody is different.	3	there yet. So, yes, it has been discussed, but
4	But if they encountered this exact same	4	there has been no word yet on which direction
5	thing we have had, what, 33 executions, and	5	we are going to go as a backup plan.
6	this is the first one where you have veins blow	6	Q Okay. You mentioned there were a couple
7	up and you couldn't get an IV started, couldn't	7	alternatives and IO was one of them. Anything
8	even get him out of the holding cell.	8	else?
9	So that's one person out of the 33 that	9	A I think that there is just research on what
10	we have had. We just have to make the attempt	10	else what else we do or there is a
11	next week. If we couldn't get the IV started,	11	medical restriction right now as far as a
12	I don't know if that would be in that case six	12	_
13		13	doctor being involved, you know, the
	sticks or if it would be 12 sticks, I don't		Hippocratical Oath, or a nurse being involved.
14	know. We would just have to play it out as we	14	So short of that, IO has been mentioned and
15	go, and I don't know how that would be. That	15	talked about. And other than that, they are
16	would be based on what the medical team told	16	just researching right now. When I say "they,"
17	us.	17	our legal counsel in central office.
18	Q Okay. And is it still your position that you	18	Q Okay. Do you have any idea what else beyond IO
19	have from the time the execution starts when	19	they are looking at?
20	you read the death warrant until midnight to be	20	A No, not at this point.
21	able to accomplish that end result?	21	Q You have not had any suggestions from anybody?
22	A We have that time frame to do that. But I	22	A No.
23	think I have said it before. There is a point	23	Q Has anybody, any team members offered up any
24	where a prudent person or a person that would	24	suggestions to you?
25	say that this is reasonable to stop at this	25	A No.
	Page 87		Page 89
1	point or not go beyond this point, and that's	1	Q Okay. Have you heard of any other options that
2	where we got with Broom. We got to the point	2	legal you said there is research I mean,
3	where we said, look, this is not going to work,	3	what kind of stuff are they researching?
4	let's stop it, why go farther.	4	A I am sure they are having conversations with
5	Q Okay. Have there been any discussions that you	5	our medical professionals and so on,
6	have any knowledge of or any participation of	6	doctor-level, on what can be done.
7	in creating or adding some kind of backup plan	7	Q Dr. Lovell, (*phonetic spelling) is that a
8	in case this happens again in the future?	8	name?
9	A We have talked about it.	9	A No. When I say doctor level, not EMT level.
10	Q When you say, "We have talked about it"	10	But at a doctor's level or above.
11	A When I say, "We have talked about it," Legal	11	Q Gotcha.
12	Counsel and the Director, just that we probably	12	A Or a surgeon or whatever. I am sure there is
13	need to take a look at having a backup system.	13	conversations on what will actually work as an
14	Q Okay. And so it and, I guess, flesh that	14	option, and what won't work, what we can
15	out for me a little bit more.	15	feasibly do in our setting, and so on. I am
16	A Well, I guess there is a few options that you	16	sure that conversation has been had.
17	can do. IO was mentioned, an interosseous	17	Q So, to your knowledge, has there been any
18	device was mentioned. I have those on site.	18	considerations or contemplations, anything,
19	Q When you say "on site," what do you mean?	19	conversations, about using a cutdown procedure
20	A I have a few in my safe that we ordered in case	20	as a backup?
21	we do go in that direction, and medical can use	21	A No.
22	them if we don't. So I have a few of those.	22	Q Same thing for a central line?
23	Our EMTs are trained, both of them have used it	23	A The IO would be the only thing that I have
24	before. Still we would have to go through	24	heard talked about.
25	training for it again. We would have to go	25	Q Okay. So nothing for like femoral access?

	Page 90		Page 92
1	A No.	1	A We disagree on the word execution and process,
2	Q Nothing like subclavian, nothing or	2	obviously. Preparation is getting them ready
3	subclavian or jugular?	3	to actually go into the execution process. And
4	A No.	4	the process to me, for lethal injection, is
5	Q I was reading last night on-line some stuff,	5	when the lines are hooked up and the drugs
6	and I saw one guy who is kind of an outspoken	6	start. That's actually the process. This is
7	attorney who is advocating a return to gas	7	all preparatory before that.
8	chambers or some intra-muscular injection	8	Q I suppose we can sit here all day and argue
9	technique to have you heard any kind of	9	about whose interpretation is right. But you
10	consideration or contemplation of using either	10	will agree with me that the warrant is not read
11	of those?	11	when you go into the death chamber; correct?
12	A No.	12	A That's correct.
13	Q Okay. So to the best of your knowledge there	13	Q The warrant is read right outside the door
14	is no backup plan in place at this point?	14	before the medical members go in to begin
15	A No, there is not.	15	sticking needles into the man's arm?
16	MR. BOHNERT: Okay. I think	16	A That is correct.
17	at this point I am good.	17	Q You are the one that read the warrant that day,
18	EXAMINATION	18	correct?
19	BY MR. SWEENEY:	19	A Yes
20	Q I just have a few, Warden. Bear with me. As	20	Q And at that point in time the process began,
21	you know, I'm Tim Sweeney and I appreciate your	21	correct?
22	patience with us today. Just so I understand	22	A Yes.
23	the sequence, it sounds like the process began	23	Q The medical team entered the chamber, correct?
24	when you read the warrant; correct?	24	A Yes.
25	A Yes.	25	Q Lawyers weren't allowed back there with the
	Page 91		Page 93
1	Q Mr. Broom at that point in time at that	1	inmate anymore; is that correct?
2	point in time you started the clock, which ran	2	A That is correct.
3	until midnight; is that right?	3	Q Because the process had now started, correct?
4	A Yes. That's correct.	4	A Yes.
5	Q In other words, "Mr. Broom, we are here today	5	Q And when Mr. Broom asked for his lawyer
6	to execute you," right? That's what you are	6	sometime during that process, he was told, no,
7	telling him, correct?	7	you can't have your lawyer because the process
8	A Yes.	8	has started; is that correct?
9	Q You are reading the Order of the Court to him,	9	A Yes.
10	correct?	10	Q And that's the rule, right?
11	A Yes.	11	A Yes.
12	Q In his presence, right?	12	Q Once the execution starts, no lawyers; right?
13	A Yes.	13	A Right.
14	Q A very solemn thing, I imagine?	14	Q Now, you were there, I guess, and it is unclear
15	A Yes.	15	but it sounds like you were there for some part
16	Q And at that time the execution process begins,	16	of the time after they went in and began the
17	correct?	17	process; correct?
18	A No. At that time the preparation process	18	A Yes.
19	starts.	19	Q How many minutes do you think you were standing
20	Q Okay. You read the warrant to begin that	20	outside the cell?
21	preparation process, as you call it?	21	A The first time I think probably 20 minutes or
22	A Yes.	22	SO.
23	Q You can call it preparation. You can call it	23	Q And at some point was a break taken?
24	whatever you want. But the execution has now	24	A Yes.
25	commenced with the reading of the warrant?	25	Q And how long into it was that first break?

	Page 94		Page 96
1	A I think I said earlier I think it was near	1	couple of attempts to start an IV access.
2	the 30-minute mark or so.	2	Q But this was, again, before you had the first
3	Q 30 minutes or no?	3	break?
4	A Yes.	4	A Yes.
5	Q Would the timeline show the first break?	5	Q Did you observe 17's efforts on the left arm?
6	A I don't know.	6	A Yes.
7	Q Would you expect it to show the first break if	7	Q Do you remember which part of the arm he was
8	it was taken? Would you expect that kind of	8	working on?
9	information?	9	A It was on the forearm area, on the inside of
10	A I think it would.	10	the forearm.
11	Q Yes.	11	Q Inside forearm of the left arm?
12	A I think it would.	12	A Yes.
13	Q Okay. At the time of the first break, were you	13	Q Did you observe him doing anything up at the
14	still standing outside the cell?	14	biceps area of the left arm?
15	A No. I was talking with the Director.	15	A Looking.
16	Q So you had already moved into another area; is	16	Q Did he make any sticks up at the biceps area
17	that correct?	17	that you can recall?
18	A Yes, back in J-1.	18	A I was thinking that he did up up in the
19	Q Now, during the first period, then, before that	19	mid-biceps area.
20	first break, 30 minutes or whatever it was, did	20	Q Okay.
21	any of the medical members take breaks? In	21	A On the left arm.
22	other words, before that break?	22	Q So that would have been in that seven to
23	A Yes.	23	10-minute time frame that he was working on the
24	Q And that would have been the one where Team	24	left arm?
25	Member 9 was given the break because she was	25	A I believe it was.
	Page 95		Page 97
1	hot; is that correct?	1	Q At this time, again, before the first main
2	A Yes.	2	break where everybody took a break, was Team
3	Q So that would be sort of a break before the	3	Member 21 still working on the right arm?
4	main break for everybody; is that correct?	4	A Yes.
5	A Yes.	5	Q Did he take a break? In other words, leave the
6	Q And you were there when Team Member 9 took her	6	room or take a break at any time before that
7	break; is that correct?	7	first big break was taken?
8	A That's correct.	8	A No. I don't believe he did.
9	Q So that would have been sometime in that first	9	Q So your recollection is it was only Team
10	15, 20 minutes; right?	10	Member 9 that had a break before the first big
11	A Probably 20 minutes or so into it.	11	break; is that correct?
12	Q So your recollection was that she was given a	12	A That's correct.
13	break because she was very hot and appeared to	13	Q All right. So the process happened for that 20
14	be uncomfortable; is that correct?	14	minutes, whatever it was, 30 minutes, that
15	A Yes.	15	first period of time; correct?
16	Q You explained about that, I think. And at that	16	A Yes.
17	point is that when 17 went in?	17	Q And then there was the break, the big break we
18	A Yes. O So is it your testimony that 17 went into the	18	are talking about; is that right?
19 20	Q So is it your testimony that 17 went into the room to make some efforts before the first	19	A Yes.
21	break that we are talking about here?	20	Q And that lasted about how long? A Top maybe 12 14 minutes
22	A Yes. That was probably he made the attempts	21 22	A Ten, maybe 12, 14 minutes. Q And then during that 12 to 14 minutes, is that
23	on the left arm, and that would have been	23	when you folks had one of the meetings with the
24	anywhere between seven and ten minutes,	24	team members?
25	probably, where he was looking and made a	25	A Yes.
23	Probably, where he was looking and made a	4.5	11 103.

	Page 98		Page 100
1	Q Back in J-1?	1	minutes, maybe, talking about what we plan to
2	A Yes.	2	do in the real near future if this next attempt
3	Q Okay. Now this I think you testified about	3	doesn't work.
4	all of this already, and I don't want to go	4	Q Okay.
5	over it again. This would have been a meeting	5	A And we were also waiting for the doctor to get
6	among the medical members, the Warden, the	6	there because we wanted to talk to the doctor.
7	Director, Team Member 10 and Mr. Voorhies; is	7	Q Okay. So as to what was going on then in the
8	that correct?	8	holding cell with Mr. Broom at that point in
9	A Yes, that's correct.	9	time, I guess you were not able to tell us; is
10	Q And during that meeting back in J-1 the	10	that right?
11	decision was essentially made we will just keep	11	A I couldn't tell you because I wasn't out
12	trying today, at least at this point?	12	there.
13	A Actually, no. At that time, I think I	13	Q As to who was doing what and how many attempts
14	testified earlier, the decision, based on what	14	were being made and as to what was happening
15	the medical team was saying, we can give it a	15	with those attempts, you have no knowledge?
16	few more tries to see if we can gain access.	16	A I have no knowledge of it.
17	So after the break, they went back and gave it	17	Q Okay. How long in total would you say did the
18	a few more tries to gain access.	18	process last during that second stint? You
19	Q This was before the doctor was called and	19	know, after the first break, process resumed,
20	before that issue was even raised; is that	20	team members went back in. How long until it
21	right?	21	was called and there was a halt again?
22	A Actually, that all when the break happened,	22	A I am going to say, including the doctor going
23	that's about the same time we called the	23	in there to do the assessment and take a look,
24	doctor, in that time frame.	24	I am going to say probably 20 minutes.
25	Q During that first break?	25	Q Twenty minutes?
	Page 99		Page 101
1	A Yes.	1	A I think so.
2	Q I guess I didn't catch that.	2	Q That's your best recollection?
3	A I don't know if I said that clearly or not, but	3	A Twenty to 20 to 30, on the outside, I would
4	I think that's the time frame that the doctor	4	think.
5	was called over, during that first break.	5	Q Okay. And in terms of how many attempts were
6	Q Okay. And then did the doctor arrive before	6	made during that process, you were not aware;
7	the process resumed? Or did the process resume	7	correct.
8	and then she arrived later?	8	A I wasn't aware until afterwards.
9	A As I recall, the process resumed and then she	9	Q All right. Were you ever made aware as to how
10	arrived.	10	many sticks were made on Mr. Broom that day?
11	Q Sometime later?	11	A Right before I called the team members back on
12	A Within a few minutes.	12	the last call-out, I asked for an approximate,
13	Q A few minutes. Okay. So in any event your	13	and they thought they were upwards of 15.
14	recollection is you had the meeting and then	14	And I told the Director we need to meet
15	the process was resumed; is that correct?	15	again, and so we pulled the team out and
16	A Yes.	16	brought them back, we met. And I mentioned
17	Q Did you and by that, I guess "we" meaning	17	the conversation earlier, that we asked each
18	the team members, the medical members went back	18	team member, is this going to work today or
19	into the room; is that correct?	19	not. And they said, "It is not going to work
20	A Yes.	20	today," and that's when we called it off.
21	Q Which medical members went back into the room?	21	Q Who told you they were upwards of 15?
22	A I couldn't tell you because I was still talking	22	A I am not sure who I asked, which one that I
23	with the Director.	23	asked, but one of the medical team members.
24	Q Did you remain in J-1?	24	And they thought it was approximately 15.
25	A We were back there another three or four, five	25	Q Was this before or after the doctor arrived?

	Page 102		Page 104
1	A After.	1	Q And you are testifying here today under oath
2	Q Okay. So the doctor had already come, to your	2	that you are quite sure you told her that?
3	knowledge?	3	A Positive.
4	A Yes.	4	Q Positive. And were there any people there that
5	Q Let's talk about the doctor for a minute. And	5	witnessed this?
6	I heard your testimony about that. She came	6	A The Director was there and myself and Rosie
7	over at your direction; is that correct?	7	Clagg.
8	A Yes.	8	Q Rosie Clagg was there, too?
9	Q And you had actually discussed that with the	9	A Yes.
10	Director and he approved that, thought that was	10	Q And this all happened in J-1; is that your
11	a good idea; correct?	11	testimony?
12	A Yes.	12	A That's correct.
13	Q Now, did you yourself speak to the doctor that	13	Q And so what happened? Did you then tell the
14	day?	14	doctor, okay, now, go in there and tell us what
15	A Yes.	15	we are missing? Is that how it happened?
16	Q Are you sure about that?	16	A I asked her to take a look at it and see if
17	A I'm positive.	17	there is something that we are missing. And
18	Q Because she didn't remember talking to you.	18	the Director and I continued to talk. She went
19	A I don't think she remembered talking to anybody	19	in with Rosie. And after that I couldn't tell
20	that day. She was all upset and frustrated,	20	you what happened. I have learned later on
21	you know. She was upset. She said she didn't	21	that she actually made an attempt.
22	want to get involved. We just asked her to	22	Q Okay. Who told you that?
23	take a look. And she agreed she would take a	23	A I am not sure which team member. I heard it
24	look but she didn't want to get involved. And	24	and I thought, no, this can't be right. And so
25	we're fine with that, we don't want you to get	25	I took a walk down to the infirmary, and I
	Page 103		Page 105
1	involved, and that was pretty much how the	1	asked Rosie and she goes and she said
2	conversation went.	2	absolutely, she did.
3	You would have to know our doctor.	3	Because I wasn't there. I was hearing
4	Little things upset her. Anything upsets her	4	this little thing going on that she made an
5	sometimes, and she tends to get a little	5	attempt and second-handed, so I went right
6	frustrated.	6	to the source and asked Rosie did she actually
7	Q What is her name?	7	make the attempt, and she told me she did.
8	A Dr. Bautista.	8	Q Okay. Did you ever talk to the doctor about
9	Q How long has she been here?	9	this?
10	A She has only been here on contract part-time	10	A I haven't talked to her about it since.
11	four or five months.	11	Q Why not?
12	Q Why did you put her in the situation where she	12	A I think right away we knew we were going to
13	had to go in this room with this inmate who was	13	have depositions. Whatever she says, she says.
14	about to be executed?	14	Q Okay.
15	A The reason we asked her over to take a look at	15	A I wasn't there. I am not going to lead her in
16	that, to see if there was like I said	16	any direction or another. But as soon as I
17	earlier, anything we were missing that she	17	learned about it I notified the AG's office, I
18	thought might be a viable option that was	18	notified our Director and notified everybody
19	within the scope of what we were going to do,	19 20	that she actually made an attempt. I am not
20			going to hide that from anybody.
21	a peripheral vein. And we didn't want her to		• •
21	get involved. We didn't ask her to get	21	Q All right.
22	get involved. We didn't ask her to get involved. And she was told, "Don't get	21 22	Q All right.A She made the attempt and we told her not to.
22 23	get involved. We didn't ask her to get involved. And she was told, "Don't get involved."	21 22 23	Q All right.A She made the attempt and we told her not to.Q And you are testifying here that you told her
22	get involved. We didn't ask her to get involved. And she was told, "Don't get	21 22	Q All right.A She made the attempt and we told her not to.

	Page 106			Page 108
1	you getting involved other than taking a look.	1	A	That's correct.
2	Q Did you tell her not to make an attempt?	2		You were interested in her input, I imagine?
3	A We told her not to do anything but take a look.	3		Yes.
4	Q What words did you use is what I want to know?	4	Q	Because that's why you called her over,
5	A "We want you to only take a look and see if	5		correct?
6	there is a viable vein that we can use, nothing	6	A	Yes.
7	else."	7	Q	So what did she tell you she found?
8	Q All right. So you did not tell her, "Do not	8		Actually when when I was talking to the
9	make an attempt," correct?	9		Director and then shortly after that, I went
10	A I can't sit here and tell you exactly. I just	10		back in there and I didn't realize she made an
11	know I told her, "Don't get involved, just take	11		attempt.
12	a look.''	12	Q	You didn't answer my question. My question
13	I didn't tell her, ''Don't make an	13		was, okay, you called this woman over, this
14	attempt."	14		Asian doctor; correct?
15	I guess you are leading me into a	15		Yes.
16	question that I really can't answer because I	16	Q	Who works for this prison, correct?
17	didn't tell her, "Don't make an attempt."	17	A	Correct.
18	Q Fair enough. That was my question.	18	Q	Ç. , ,
19	A Okay.	19		Four, maybe five months part-time.
20	Q Exactly.	20	_	Okay. She goes in there at your direction to
21	A Okay. I told her, "Don't get involved other	21		tell you, you know, let us know if there is
22	than looking," and that was it.	22		anything we can do, let us know if we are
23	Q Isn't looking telling her to go in there and	23		missing anything; correct ?
24	look, isn't that being involved?	24		Correct.
25	A No. She is not physically being involved in	25	Q	And you are on this death warrant, the process
	Page 107			Page 109
1	it. She is taking a look at it. That's how I	1		has started, Mr. Broom has been there for an
2	see it.	2		hour-and-a-half or more waiting to die;
3	Q Okay. But you are telling a doctor, you	3		correct?
4	know and she works for you, right,	4		Yes.
5	essentially?	5		You send in a doctor, correct?
6	A Yes.	6	A	
7	Q And you are telling her to go in there, take a	7		Because you want her input, correct?
8	look, come back and report to us, people in	8		Yes.
9	charge of this institution, on what you see the	9	_	She goes in at your direction, correct?
10	situation to be. Is that essentially what you	10		Yes.
11 12	charged her to do? A That's correct.	11 12	_	I imagine you are curious as to what she is
13	Q All right. But you told her I guess you	13		going to say, correct? Yes.
14	also said, "Don't get involved"; is that	14		What did she say?
15	correct?	15		After she came back out I was back there
16	A That's correct. And she actually said, "I	16		with the Director. She came back into J-1 and
17	don't want to get involved."	17		she said just, "The veins aren't holding."
18	And we said, ''That's fine, we don't want	18		So she actually came back and had a discussion
19	you to get involved. Just take a look for us."	19		with you and the Director; is that your
20	Q Okay. And then she went in there evidently; is	20		testimony?
21	that correct?	21		Yes. She and Rosie came back and said, "The
22	A That's correct.	22		veins aren't holding."
23	Q And then I imagine you were waiting for her to	23		Okay. So they came back from the cell front;
24	come and tell you what she had found; is that	24		is that your testimony?
25	correct?	25		Yes.

	Page 110		Page 112
1	Q They came back to you and the Director; is that	1	that the veins weren't working or weren't
2	correct?	2	holding; is that your testimony?
3	A Yes.	3	A Yes.
4	Q And she said to you, "The veins aren't	4	Q Was that her exact words?
5	holding"?	5	A Yes.
6	A Yes.	6	Q And you believe the Director was there, too; is
7	Q And that's your testimony here today under	7	that correct?
8	oath?	8	A I believe he was.
9	A Yes.	9	Q And you believe Ms. Clagg was there, too; is
10	Q That this is what Dr. Bautista said?	10	that correct?
11	A Yes.	11	A Yes.
12	Q Okay. So your testimony is she confirmed what	12	Q All right. Did she tell you that she had made
13	you already knew?	13	an attempt?
14	A Yes.	14	A No.
15	Q Okay. Did you ask her how she knew that?	15	Q So you didn't find that out until later?
16	A No.	16	A That's right.
17	Q Did you ask her, "Did you look here?" Did you	17	Q Now, this is one of those things that I am
18	ask her any questions to probe because you were	18	confused about. Now, this Mr. Broom guy, okay,
19	interested in what she had to say, I imagine?	19	he is an inmate here; correct?
20	A Well, after the number of attempts we made on	20	A No.
21	him on the first session and then the second	21	Q Inmate here of the State of Ohio?
22	session, and she came back and said, "The veins	22	A Yes.
23	won't hold, the veins aren't holding," she	23	Q He has been in the custody of the State of Ohio
24	pretty much confirmed what we already knew.	24 25	for at quarter of century or so, correct?
25	And, no, I didn't ask her a lot of questions. Page 111	23	A Yes. Page 113
1	She is a doctor. The medical team has already	1	Q And you have known for how many months that he
2	said that the veins aren't holding. She	2	was going to be supposed to be executed on
3	confirmed what they were saying. And at that	3	September 15, 2009?
4	point in time we pulled the team out, and	4	A Probably four.
5	that's when we had our last meeting.	5	Q Four months?
6	She left J-1, went on back to what she	6	A Probably four months.
7	was doing, and then we had our meeting.	7	Q And that's by that, we mean that you have
8	Q Okay. Your testimony is that you had this	8	known for four months that that was going to be
9	doctor come over to make this attempt, or to	9	the date; correct?
10	provide this assistance. She came back and	10	A Yes. You understand the process, I'm sure.
11	actually gave you her feedback, her opinion; is	11	Q Yes. Okay.
12	that right?	12	A We get the order from the Supreme Court. It
13	A Yes, right before she left.	13	was maybe set on April 10th that he would be
14	Q And you didn't ask her any questions?	14	executed on September 15th, we will say.
15	A No.	15	Q And the prison here, the people here in
16	Q You didn't ask her why she thought that?	16	Lucasville, including you as the Warden, you
17	A No.	17	have known for decades that some day he is
18	Q You didn't ask her, "Did you look here, did you	18	going to be brought down here to be executed;
19	look there, did you do this, did you do that?"	19	correct?
20 21	You didn't ask her any questions at all?	20 21	A Yes.
22	A That's correct.Q You didn't bring your medical team over to ask	22	Q So he shows up ready to be executed on the 14th of September; correct?
23	her any questions; is that correct?	23	A Yes.
24	A That's correct.	24	Q You guys have a procedure in place that is
25	Q Because you were I guess she had told you	25	supposed to be applied to cause him to be put
	2 Decause you were I guess she had told you	1-5	supposed to be applied to eduse initi to be put

	Page 114		Page 116
1	to death on the 15th of September; correct?	1	ought to know?
2	A That's correct.	2	A You would think that that was something that
3	Q And you've had 10 years, 15 years, 25 years, to	3	would be charted, that we knew ahead of time
4	figure out what kind of veins this man has;	4	and so on, but we didn't.
5	correct?	5	Q Okay. And I guess my question to you, as the
6	A Yes.	6	Warden, the person in charge of making this
7	Q And he wasn't some guy just off the street,	7	process happen for Mr. Broom, who showed up
8	right?	8	here ready to be executed like you said, he
9	A That's correct.	9	had given up, he knew it was time to go, he was
10	Q He was a guy that has been in your custody for	10	there, he was going to let you do it to him
11	a very, very long time; is that correct?	11	because he had no choice. It started and you
12	A Yes.	12	can't finish it because of no fault of his own;
13	Q And I guess what I am hearing you say is that	13	is that correct?
14	on the day of his execution after the process	14	A Yes.
15	has started, you here at the prison are	15	Q And his vein issue that you are talking about
16	learning for the first time that, hey, we may	16	is an issue that was within the power of the
17	have some problem with this man's veins; is	17	medical expertise that you can bring to bear at
18	that correct?		,
19	A Yes.	18	this prison to identify and notice before
		19	September 15th; correct?
20 21	Q Now, as the Warden here, aren't you angry that	20	A I don't think I can answer that, actually, as
	you your team didn't figure that out before	21	correct, because I don't know if this man has
22	you brought Mr. Broom over here and read that	22	ever had an IV started on him since he has been
23	warrant to him?	23	locked up. I don't know.
24 25	A You know, when you are asking me that question	24 25	Q But you have had 25 years to test him; right?
23	if I am angry, no, because I will tell you why	25	A The difference between an IV start-up and a
	Page 115		Page 117
1	I am not. If I intentionally dehydrate myself,	1	saline drip and just drawing blood, there is a
2	if that's what he did I don't know if that's	2	difference. One is taking fluid out on a
3	what he did. But if he intentionally	3	gravity flow, and one is putting fluid in.
4	dehydrated himself a week or two weeks before,	4	When you put fluid in, obviously there is a
5	then that could have affected the veins, as I	5	little pressure and so I don't know if he has
6	understand it from what the medical team is	6	ever had a IV drip before or if he has had an
7	telling me.	7	IV before. It is a little different when you
8	Q Okay.	8	have an IV versus when you are having just a
9	A I don't know. I mean, anybody can dehydrate	9	blood draw.
10	themselves and it starts causing the veins to	10	Q Fair enough. But whatever the excuses might
11	constrict a little bit. And if that's what he	11	be, he has been here. If there is a vein issue
12	did, that's what he did.	12	that needs to be identified and addressed,
13	He made the comment that I heard in the	13	that's something that could have been done
14	process when we were trying to start the IV	14	before September 15th; correct?
15	that the nurses have had problems getting blood	15	A Yes.
16	draws before. So that may indicate to me that	16	Q But it evidently was not; is that correct?
17	maybe this just isn't dehydration, maybe he has	17	A That's correct.
18	always had a problem of accessing veins.	18	Q Now, this hydration issue, I know I have heard
19	Q Bingo.	19	you say that that potentially was an issue on
20	A But we weren't told.	20	the 15th of September. Has that been your
21	Q Why not?	21	testimony?
22	A That's a good question. I don't know.	22	A Yes.
23	Q Don't you think you should have been told?	23	Q And I guess there is a lot of reasons that
24	A I couldn't tell you.	24	could have been the reason for the problems
25	Q I mean, isn't that something you think you	25	getting the veins; is that right?

	Page 118		Page 120
1	A We hit the veins. We just couldn't sustain	1	IV and it didn't work.
2	them.	2	Q So you don't think that's a big incident?
3	Q As to whether or not Mr. Broom was hydrated or	3	A It is significant enough that we called the
4	dehydrated or whatever on September the 15th,	4	execution for that day off.
5	you have no knowledge; is that correct?	5	Q But as far as Mr. Broom is concerned, do you
6	A No knowledge.	6	think it was a big incident to him?
7	Q And when you say a hydration issue then, you	7	A Yeah. I am sure it was.
8	are talking purely and solely speculation;	8	Q Yeah. And is there any difference between what
9	correct?	9	happened to Mr. Clark and what happened to
10	A Speculation from what the medical team talked	10	Mr. Broom, at least up to the point where the
11	about, that that's a possibility.	11	IV was infiltrated in Mr. Clark's case?
12	Q Sure. A lot of things might have been a	12	A You know, I can't answer that because I wasn't
13	possibility; correct?	13	here.
14	A Yes.	14	Q Both men, you will agree, were brought to this
15	Q The issue of this protocol that you had in	15	prison to be executed; correct?
16	front of you, Warden, from May of 2009, I guess	16	A That's correct.
17	the issue of people having problems with the	17	Q Both men had death warrants read to them; is
18	their veins peripherally and getting access and	18	that correct?
19	all of that I mean, that is not something	19	A That's correct.
20	that is unheard of; is that correct?	20	Q Both men had the medical team come in and begin
21	A I am sure that is not unheard of. It happens	21	the process by trying to put IV lines into
22	in hospitals and any medical setting.	22	their bodies; correct?
23	Q It probably happens all the time?	23	A Yes.
24	A I am sure it does.	24	Q All right. And the only difference with Clark,
25	Q If you are in a situation here at this prison	25	at least up to the point where the IV actually
	Page 119		Page 121
1	when you are trying to execute someone	1	bulged that first time, is that he actually had
2	peripherally and you can't get access after 15,	2	to go a few feet more and lay down on the bed;
3	20 attempts, your protocol calls for no	3	is that correct?
4	contingency plan whatsoever; is that correct?	4	A Yes, as far as I understand. Like I said, I
5	A As it stands right now, that is correct.	5	wasn't here.
6	Q That this prison has had, at least since	6	Q Now, you have said a number of times that you
7	Mr. Broom has been here and since lethal	7	didn't think they were ever able to get a vein
8	injection has been a method of execution in	8	that day. Has that been your testimony?
9	Ohio, years and years and years to	9	A They hit veins frequently when I was watching,
10	get to a point where it could address that	10	but they couldn't sustain. As soon as they had
11	contingency, if necessary; is that correct?	11	the saline, the vein would bulge.
12	A That's correct.	12	Q Okay. Did you ever observe that happen?
13	Q And as of the time Mr. Broom arrived here on	13	A Yes.
14	September 15, 2009, that issue has not been	14	Q How many times?
15	addressed; is that correct?	15 16	A Probably four or five on the left arm. O That would have been in the first ten minutes.
16	A That's correct.	17	Q That would have been in the first ten minutes or so?
17	Q Now, you said that you didn't think we had a		
18	big incident that day. Is that your testimony	18 19	A Probably first 30 minutes, when Team Member
19 20	or did I mishear you?	20	No. 9 had to go out and then 17 stepped in. I saw it happen several times when he was making
20 21	A I think that's your wording. It was an incident. What I had said about that is I	21	an attempt, also.
22	think in the Clark case I wasn't here, but I	22	Q Did you observe that Team Member 21 on the
23	actually think that he was on the table, as far	23	right arm actually did get an IV going and had
24	as I understand it. This case here, we made	24	the bag set and ready to go. Did you observe
25	the attempts in the holding cell to insert an	25	that?
23	ane accompas in the noruning cen to insert all	123	titut.

	Page 122		Page 124
1	A Yes.	1	Q Still today?
2	Q What do you recall about that?	2	A Yes.
3	A I don't know if the IV came out or what	3	Q So that's still on the table, as far as know?
4	happened with it, but he had to reset again.	4	A As far as I know.
5	Q Okay.	5	Q It has not been rejected; is that correct?
6	A I couldn't see it.	6	A I heard that it may be rejected.
7	Q Have you been told that the IV that the	7	Q What do you mean, you heard that it may be
8	catheter was pulled out of the vein by the	8	rejected?
9	security team member who yanked on the tubing	9	A As I understand it, in talking with Mr.
10	when he was hanging up the bottle?	10	Voorhies, that that may not be a viable option.
11	A No.	11	Q Okay. Why? Did he tell you why?
12	Q You haven't been told that?	12	A I think there was I think there was some
13	A No.	13	concern, and we haven't really talked with the
14	Q Okay. Because that's been the testimony. Now	14	professionals as to whether you can deliver
15	that I am telling you that, that would indicate	15	this drug protocol through an IO.
16	that at least one IV was started and apparently	16	Q Um-hum. (Affirmative) But you are not aware of
17	ready to go but one of the security team	17	any discussions about any other alternatives?
18	members pulled it out?	18	A No.
19	A Could be.	19	Q For getting, completing lethal injections?
20	Q Okay. But nobody told you that that day	20	A No.
21	A No.	21	Q Would your prison is your prison prepared to
22	Q is that correct?	$\begin{vmatrix} 21 \\ 22 \end{vmatrix}$	conduct an execution on October 8th?
23	A No.	23	A I would say we are based what I have seen since
24	Q So your, I guess, notion that none of these	24	I have been here. Other than Broom's case, we
25	that all of these veins were popping, at least	25	have been successful on the six I have been
23	Page 123	23	Page 125
1	it doesn't apply with respect to that incident;	1	involved in. Broom would be the seventh one
2	correct?	$\frac{1}{2}$	that went awry, where we couldn't start the
3	A I really can't say it does apply to it because	3	IVs. And until you told me about the IV being
4	I don't know.	4	pulled out by the security officer, corrections
5	Q Okay. Are you telling me that as the Warden of	5	officer, I didn't know that.
6	this prison with all of this litigation going	6	Q That's significant to know that, though,
7	on about lethal injection, and then with Mr.	7	because doesn't that change your perspective a
8	Broom's case and all of the attention that that	8	little bit about what happened that day?
9	received, that you have no idea what	9	A It does as far as we don't know if that vein
10	alternative procedures are being considered?	10	would have held because did they get a chance
11	A I told you that I know that we are looking at	11	to drip saline to it or did he pull it out
12	the IO.	12	before he even started the saline moving? I
13	Q And that's the only one?	13	don't know.
14	A I haven't got any more information other than	14	Q Well, he said he did the drop-bag test and that
15	that right now.	15	held.
16	Q Have you been told that you are not allowed to	16	A Um-hum. (Affirmative)
17	talk about that with us?	17	Q And he picked up the bag, handed it to the
18	A No.	18	security officer to put it on the hook. The
19	Q So you are telling me under oath today that the	19	security officer grabbed the bag and pulled the
20	only thing that you have heard about is IO?	20	tubing out the IV. That was the description by
21	A We were discussing IO about three or four	21	Team Member 21.
22	months ago.	22	A Okay.
23	Q Okay. What about recently, are you discussing	23	Q You have never heard that until today, I take
24	anything else?	24	it?
25	A IO.	25	A No. But the problem
			*

	Page 126		Page 128
1	Q Is that correct?	1	that, whether we could actually get it done on
2	A That's correct. But the problem I see, if that	2	seven days later.
3	one would have held, we still would have needed	3	Q What about 100 days later? Would it be any
4	a second one. Because I think after Clark we	4	different?
5	went to having two lines, one alternate line	5	A I wouldn't know. I wouldn't know if his
6	the primary line and the alternate line.	6	situation changed.
7	Q Okay.	7	Q Which situation?
8	A We still have to have two IVs hooked up.	8	A If he was dehydrated, if he became hydrated, I
9	Q Do you think, as the Warden here, and having	9	don't know. I would be speculating about that.
10	been here that day first of all, you	10	Q But as to what the effect it had on him, you, I
11	witnessed Mr. Broom crying, I understand?	11	think would have to agree, that that two hours
12	A Yes.	12	for him must have been extremely traumatic and
13	Q More than once?	13	emotional and draining; do you agree?
14	A No.	14	A Oh, I agree. After the two hours, I think he
15	Q But you did witness at least one time; is that	15	was emotionally tired.
16	correct?	16	Q And then the the thing about having to get
17	A Yes, I did.	17	ready to die, thinking you are going to die,
18	Q So he was obviously upset; is that right?	18	then having to wait 15 minutes, an hour, two
19	A At the very end, yes, he was.	19	hours, and finding out, wait, you are not going
20	Q And you will agree with me that up until that	20	to die today
21	point and really throughout the entire process	21	A Um-hum. (Affirmative).
22	he was cooperative?	22	Q that whole experience is something unlike
23	A Absolutely.	23	anything you have ever seen before; is that
24	Q He was compliant; correct?	24	correct?
25	A Yes.	25	A That had to be emotionally draining, just like
	Page 127		Page 129
1	Q He was doing what he was told; correct?	1	having an appeal sitting there and not having
2	A Yes.	2	the answer back. Now the first day passed by,
3	Q He wasn't creating any problems; correct?	3	second day coming up, and here 11 o'clock in
4	A That's correct.	4	the morning learn that my appeal didn't work,
5	Q And you, I think, testified that at least in	5	now I am going to die. I think that would be
6	your view he was ready to move forward and to	6	emotionally draining, too, leading up to that
7	die that day?	7	process, I think that whole process would be
8	A Yes.	8	probably be emotionally draining for somebody
9	Q And then the process was called off; correct?	9	that has got an appeal pending, including that
10	A Yes.	10	two hours that we were involved with him.
11	Q Through no fault of his own; correct?	11	Q This is a little different. Now you have read
12	A That's correct.	12	the death warrant?
13	Q And have you given any thought now, as you sit	13	A Yes.
14	here and as you have reflected over the last	14	Q Now you have said to him we are ready to do it,
15	couple of weeks since that happened, about what	15	all of the appeals are over, the process is now
16	kind of impact or what kind of experience that	16	beginning; correct?
17	two hours must have been for him?	17	A That's correct.
18	A I thought about it because when we had the	18	Q That is something totally different. You don't
19	reprieve for seven days I thought what's going	19	have that with just appeals pending; right?
20	to be different seven days from now, especially	20	A Yes.
21	after my team members mentioned that they don't	21	Q With Mr. Broom you started the process; is that
22	think seven days is going to make a difference	22	correct.
23	because of the way the veins were swelling	23	A Yes.
24	every time we would introduce the IV or the	24	Q You started sticking him in the arms with
25	saline drip. And so I had some concern about	25	needles; is that correct?

	Page 130		Page 132
1	A That's correct.	1	recording of the rehearsals themselves?
2	Q And he had no idea how that day was going to	2	A No.
3	end except that he expected for it to end with	3	Q Okay. So there is no recording device of any
4	him in the grave; correct?	4	kind that is running during those?
5	A Yes.	5	A That is correct.
6	Q And that whole experience is something totally	6	Q And is it also just to make sure I
7	unique for a human being to go through;	7	understand, is it also your testimony that you
8	wouldn't you agree?	8	had no idea that there were venous access
9	A Yes.	9	problems looming with Mr. Broom until when the
10	Q And traumatic for a human being to go through;	10	IV team, the medical team, started to stick him
11	wouldn't you agree?	11	after you read the death warrant?
12	A I would think.	12	A Yes.
13	Q Would you, as a Warden, think it is appropriate	13	Q So that information had never been conveyed to
14	to make a human being go through that	14	anybody on that?
15	experience again?	15	A I don't know if they actually knew about it
16	A You know, I haven't given that any thought	16	until they got started.
17	because my thought was we are going to have	17	Q Okay. Now, you also testified about two lines
18	these depositions, he got his delay. I was	18	and you said if well, even if the one arm
19	actually just my thinking, this isn't going	19	had been started, the one that the needle got
20	to happen November 30th, this is not going to	20	pulled out. You said even if that one was
21	happen any time in the next twelve months by	21	good, that was still only one and you need two.
22	the time this is litigated out.	22	What did you mean by that?
23	Q Okay.	23	A After Clark, as I understand it, they used one
24	A I have got some time to think about this. We	24	line pre-Clark, used one line, one feed line,
25	have got some time to develop a backup plan.	25	for the drugs to travel through.
	Page 131		Page 133
1	Q Even if you have a backup plan, is it humane,	1	Q Okay.
2	in your view, to make a human being, Mr. Broom,	2	A After post-Clark, as I understand it, they went
3	go through an execution again after one attempt	3	to the two-line protocol.
4	has been made and has failed?	4	Q So that is required that there has to be two
5	A Let me just say this. I have got a job that I	5	lines?
6	have got to do that I am charged with doing,	6	A I believe that that's a requirement now. It
7	and I have to do my job to my ability. And	7	says "will establish primary and an alternate
8	what I am told to do, that's what I am going to	8	site." It's in the policy. That's the
9	do. And if the Supreme Court says we have a	9	direction we have to go.
10 11	new execution date, then that's the date we will go with.	10 11	And my concern would be going with one is if you blow it out and now you have got to do
12	MR. SWEENEY: I have no	12	another hookup and try to find another vein.
13	further questions. Thank you, sir.	13	Q Okay.
14	THE WITNESS: Thank you.	14	A That's why I think it is written in the policy,
15	RE-EXAMINATION	15	have the alternate ready to go and have a
16	BY MR. BOHNERT:	16	viable vein on the alternate site.
17	Q I just have, again, I promise real quick	17	Q So is it your understanding that there that
18	questions. I thank you for your patience here	18	it is absolutely required by the written policy
19	and I know you're a busy man and you have got	19	that there be two working viable IV sites?
20	lots to tend to.	20	A That's correct.
21	I'm curious, are the rehearsals that are	21	Q For an execution to continue at any point?
22	conducted, recorded in any way, the execution	22	A That's correct.
23	rehearsals?	23	Q Correct?
24	A Yes. We do a timeline on those, also.	24	A As our policy is written today, that's correct.
25	Q Okay. But as far as any audio or video	25	Q Okay. And you are the Warden and you are the

	Page 134		Page 136
1	one who is primarily responsible for	1	Q It is a little unclear on exactly which inmate
2	implementing the execution policy or protocol;	2	it was and, you know, we haven't been able to
3	is that correct?	3	find that particular name out. But we think it
4	A That's correct.	4	was during the Keene execution. There was
5	Q Okay. So if a second line, the second line	5	testimony from a couple of different
6	we get two lines, okay? We move to the death	6	individuals that, at some point during one of
7	chamber, okay?	7	the executions from Wilson-onward, that there
8	A Um-hum. (Affirmative)	8	was not two working lines for some period of
9	Q If at any point one of those two lines becomes	9	time but the execution was not stopped. Were
10	non-viable, does the process have to stop, in	10	you aware of that?
11	your view?	11	A Yes. I think you are correct. I think it was
12	A Let's say let's say if the primary line is	12	Keene. I think when they started introducing
13	ran, okay. If we have a blow-out in a vein or	13	the medication there was resistance and they
14	a swelling in the vein, under that table I have	14	automatically went to the opposite side. Or
15	a switch where I can throw the light and we are	15	they started introducing the saline and there
16	going to stop right at this point. The medical	16	was a resistance to the saline, so they went to
17	team member is going to come out and assess	17	the alternate site and used the alternate site.
18	that, double-check and making sure if we have a	18	I think on him, I think we were saying he
19	problem there. Then we would switch to the	19	would receive it in the left arm, and I think
20	other site. We would not finish up if he is	20	he actually received the drugs in the right
21	halfway into Drug 1, he has used one syringe	21	arm.
22	and not Syringe 2, then on this site here we're	22	Q Okay. Actually that's a little bit different
23	not going to finish Syringe 2. We will go and	23	than what I am saying. I am saying that we
24	re-introduce the protocol over again with A and	24	have testimony to the effect that at some point
25	B on this arm, we would go to the opposite	25	in one of the recent executions and by
	Page 135	23	Page 137
١.			
1	side.	1	recent, I mean from that Wilson forward.
2	Q That's a little bit different than what my	2	A Sure.
3	question is. My question is if any point you	3	Q The executions under the current protocol.
4	don't have two viable working IV sites, a	4	During one of those executions, at least, there
5	primary and backup that are both working, if	5	came a point where there was not two working
6	you come to learn that one of them is not	6	viable IV lines as the inmate was on the table
7	working, under the protocol must you stop?	7	in the death chamber, and the process was not
8	A If he is already on the table and so on, and we	8	stopped, there was no change made, nothing was
9	have already introduced part of one, we are	9	done, the process plowed straight forward
10 11	going to stop on that side and, like I said, we	10 11	ahead. Are you aware of that?
12	are going to go ahead and move forward from there. We want two hooked up, and policy calls	12	MR. WILLE: At this point I
13	for two hooked up when we start the process.	13	am going to object to the form of the question. Assuming it's framed as a hypothetical as well
14	Q So you would agree with me that if you don't	14	as a leading question, I object because I
15	have two that were hooked up and one of them is	15	believe the testimony indicated, that you are
16	no longer working, you have to stop the	16	referring to, is that at some point one of the
17	process; correct.	17	medical team members in the equipment room
18	A We have to stop and go to the alternate site.	18	noticed that the secondary line may have had a
19	That's why the alternate site is hooked up.	19	difficulty in the flow. He noted that before
20	Q Okay. So are you aware that a scenario has	20	he needed to correct it, the problem seemed to
21	already occurred where the second line was not	21	resolve by itself. That's my recollection of
22	working for some period of time but the	22	the testimony. And with that said, you may
23	execution process was not stopped?	23	answer the question.
24	A I don't know who you are talking about, which	24	THE WITNESS: Okay. As I
25	one.	25	understand it, there was resistance, as I said
	VII.VI	22	anderstand it, there was resistance, as I said

	Page 138		Page 140
1	earlier.	1	incidents other than the one that you are
2	Q (By Mr. Bohnert) No. This is a different	2	describing where there was a change made from
3	situation from what I think you are talking	3	one arm to the other arm?
4	about.	4	A No.
5	A Okay.	5	Q You are not aware of any other incidents where
6	Q I am asking were you aware of the situation	6	there was flow problems with one of the lines;
7	that I explained to you and that Mr. Wille just	7	correct?
8	described?	8	A No. That's the only one I know.
9	A I wasn't aware of it until we saw the flow	9	Q That's what I am asking. You, as you sit here
10	coming from the opposite side that we thought	10	right now, are not aware that that has
11	the flow was going to come from.	11	happened?
12	Q Okay.	12	A No.
13	A In other words	13	Q Correct?
14	Q So, in other words, you are not aware of the	14	A That's correct.
15	incident that I am talking about, I guess?	15	Q Is it fair that you would want to know?
16	A I am aware of it. I am aware of it, because	16	A Yes.
17	when I say I am aware of it, it is kind of like	17	Q Would the process have to stop if that were, in
18	after-the-fact. On Keene, we thought this	18	fact, the case?
19	would be the primary side on the left arm. And	19	A I'm guessing how far are you into it? Is
20	as it ends up, there was some resistance with	20	this just saline drip? The only one I know
21	the saline drip and it wasn't flowing. So	21	about is Keene, so if you have got something
22	that's why we use the two lines, and then they	22	else that I don't know about then it's a little
23	went to the right side and that's where the	23	hard to answer the question.
24	flow was delivered.	24	Q Well, I'm saying if in that situation, if one
25	(Discussions were had off the record.)	25	of the lines became non-viable if the backup
	Page 139		Page 141
1	Q (By Mr. Bohnert) Okay. We are ready to go back	1	line became non-viable, does the process have
2	on. I guess let me try to re-frame what I am	2	to stop because there now, at that point in
3	talking about here.	3	time, not two possibilities?
4	A Okay.	4	A Well, I guess when you say the backup line
5	Q I guess my question is, are you or are you not	5	Q The secondary.
6	aware that there was a point in time during one	6	A my assumption is if you are saying that the
7	of the executions, Wilson until now, during	7	backup line became not viable, that means the
8	which the secondary line became non-viable, was	8	primary line is also not viable. That's what I
9	not throw flowing for some period of time, we	9	am understanding the question to be. Because
10	are not sure how long, but the process was not	10	we wouldn't use the backup line unless the
11	stopped?	11	primary line was not viable. We wouldn't use
12	A No. I think how that went, the primary line	12	it. We would go with the primary line first.
13	was to be the left arm, okay. They couldn't	13	And if that doesn't work, we would go to the
14	get the IV flow, as I understand it, to flow in	14	alternate line, the backup line.
15	the left arm. They went ahead and switched to	15	So f they are on the backup line and it's
16	the right arm, and that's why we do the two	16	not working, then we've already tried the
17	hookups after Clark. And then they	17	primary and the backup and now we are stopping.
18	automatically went to the left arm and they	18	Q Just one second.
19	they had a saline drip that was flowing, and	19	A Okay.
20	that's where the drugs were introduced into the	20	Q It is my understanding that there is saline
21	right arm because I was we always tell each	21	solution flowing through the secondary line; is
22	other left arm or right arm? Left arm is where	22	that correct?
23	we're expecting it to come and it came from	23	A Primary and secondary.
24	to the right arm.	24	Q So once we start injecting on the primary,
25	Q Okay. So you are not aware of any other	25	okay, but if there is no longer saline flowing
			· · · · · · · · · · · · · · · · · · ·

Page 142		Page 144
through the other whether we want to call it	1	MR. WILLE: I'm going to
backup, secondary, the other line if there	2	object to that because there has been no
is no longer saline solution flowing through	3	testimony that, in fact, the secondary line
that line, is that a point where the execution	4	failed after the drugs began administration.
	5	My recollection of the testimony is that
	6	No. 17 testified that in one instance, probably
already into it.	7	the Keene execution, he noted that the
Q You started injecting Drug 1 on this arm; okay?	8	secondary line appeared to have a problem with
I mean, is that what you are saying?	9	the saline flow, that before he could call it
I mean, you have already started using	10	to anyone's attention or take a step, the
the primary line, you started inject Drug 1?	11	problem seemed to correct itself. But I don't
A Okay.	12	believe he testified that that occurred while
Q Okay. The other, secondary, backup, whatever	13	the first line drug was being administered.
term you want to use for it, the saline stops	14	Now, that's my recollection of the testimony.
flowing through that line?	15	MR. BOHNERT: And I guess,
A Um-hum. (Affirmative)	16	for the record, let's put on there that there
	17	was testimony on three different instances in
		depositions here about that particular incident
	19	because No. 17 has testified about it twice and
		No. 21 has testified about it once. So I guess
		that's all I am asking is, at that point would
		not the execution have to stop?
		THE WITNESS: No. No.
		MR. BOHNERT: Okay. I don't
line and you have got the drugs being	25	believe that I have any other questions. Do
Page 143		Page 145
delivered.	1	you?
Q But you don't know if that one might	2	RE-EXAMINATION
	3	BY MR. SWEENEY:
		Q Just a couple. On this Keene thing I'm
		sorry Chuck, I'm sorry, Warden but is it
		your testimony that on Keene that there was a
		switch from one line to the other at some point
, ,		in the process?
		A Yes.
		Q In other words, you were going to I think
		you said it many times. You were going to
		start on the left that day but it ended up the
		right that was used?
		A That's correct.
		Q The left would be the side closest to the victim's window or the windows that the
e e e e e e e e e e e e e e e e e e e		
		witnesses would be there watching; right? A Correct.
		Q The right would be the side closest to where
· · · · · · · · · · · · · · · · · · ·		you were standing?
<u>*</u>		A Yes.
say happened, because I guess	122	O So on that particular execution was that Mr
say happened, because I guess O There has been testimony that this has	22 23	Q So on that particular execution, was that Mr. Keene?
Q There has been testimony that this has	22 23 24	Very So on that particular execution, was that Mr.Keene?A Yes.
	through the other whether we want to call it backup, secondary, the other line if there is no longer saline solution flowing through that line, is that a point where the execution process has to stop? A And we have already started Drug 1 and we are already into it. Q You started injecting Drug 1 on this arm; okay? I mean, is that what you are saying? I mean, you have already started using the primary line, you started inject Drug 1? A Okay. Q Okay. The other, secondary, backup, whatever term you want to use for it, the saline stops flowing through that line? A Um-hum. (Affirmative) Q Okay. At that point does the process have to stop? A Not if I would say no, because we have got two lines hooked up, and that's why we hook them up so we have an alternate site. If the saline is not flowing but where the drugs are being delivered is flowing fine, you wouldn't stop. You have got a good flowing line and you have got the drugs being Page 143 delivered. Q But you don't know Q The one being used? A You don't know until actually the drugs are being pushed in. But if it's going to infiltrate, you will know it right away and you would know it pretty quick. Q Okay. So do I understand your testimony correctly then that it is okay to move forward with an execution with only one viable line? A It is because that's why we hook up two, and I have said that several time now. After Clark, we went to two lines. If one doesn't deliver, we go to the alternate line. Q But in this case there is no alternate line, I guess is what I'm saying, and I'm understanding your testimony, that it's okay to move forward without a backup alternate line? A Now, is this a hypothetical or is this what you	through the other — whether we want to call it backup, secondary, the other line — if there is no longer saline solution flowing through that line, is that a point where the execution process has to stop? A And we have already started Drug 1 and we are already into it. Q You started injecting Drug 1 on this arm; okay? I mean, is that what you are saying? I mean, you have already started using the primary line, you started inject Drug 1? A Okay. Q Okay. The other, secondary, backup, whatever term you want to use for it, the saline stops flowing through that line? A Um-hum. (Affirmative) Q Okay. At that point does the process have to stop? A Not if — I would say no, because we have got two lines hooked up, and that's why we hook them up so we have an alternate site. If the saline is not flowing but where the drugs are being delivered is flowing fine, you wouldn't stop. You have got a good flowing line and you have got the drugs being Page 143 delivered. Q But you don't know wif that one might infiltrate; right? A You don't know until actually the drugs are being pushed in. But if it's going to infiltrate, you will know it right away and you would know it pretty quick. Q Okay. So do I understand your testimony correctly then that it is okay to move forward with an execution with only one viable line? A It is because that's why we hook up two, and I have said that several time now. After Clark, we went to two lines. If one doesn't deliver, we go to the alternate line. Q But in this case there is no alternate line, I guess is what I'm saying, and I'm understanding your testimony, that it's okay to move forward without a backup alternate line? A Now, is this a hypothetical or is this what you

	Page 146		Page 148
1	use the arm closest to the window where the	1	wasn't flowing properly and then later on it
2	witnesses were; right?	2	did. But that is actually their call in there.
3	A Right.	3	I am not in that room. So if they are having
4	Q But wound up using the arm closest to you, the	4	an issue with one side, then go to the
5	Warden; correct?	5	alternate side.
6	A Yes.	6	Q But isn't there a whole process that you are
7	Q And in connection with that switch, did you	7	supposed to follow if you switch lines? Isn't
8	utilize the light signaling device that is	8	that called out now in the protocol?
9	called out in protocol?	9	A Actually, that's why both lines are hooked up.
10	A No.	10	We have both lines attached in there into the
11	Q Why not?	11	room.
12	A Because we had the IV flowing, the drugs coming	12	Q Okay.
13	to the opposite arm. Obviously, in the	13	A And if they have resistance on one side then
14	equipment room there was a reason they did	14	they move to the other side.
15	that, and you could see the liquid moving	15	Q Isn't there supposed to be a lighting
16	through to the right arm and it was flowing	16	mechanism? Are they supposed to employ some
17	properly. I was watching this arm very closely	17	way to let you know that?
18	at that point. (Indicating)	18	A No. The lighting mechanism is for me to let
19	Q You were watching the right arm closely?	19	them know if we see an infiltration on the
20	A Right arm. Right arm. I was watching it	20	floor, out in the death chamber itself. That's
21	closely and the flow was coming. He was	21	my way of letting them know quickly that we
22	unconscious or asleep within five, ten seconds,	22	have got a problem in there and they need to
23	and the drugs continued. All of the signs that	23	come out and take a look at it right away.
24	we see in the chamber. He was unconscious, and	24	Stop, come out and take a look at it.
25	during my unconscious check, he was and but	25	Q Okay. So your understanding of this Keene
	Page 147		Page 149
1	I was thinking it was coming to the left arm	1	execution is that they were going to start on
2	but it actually did come to the right arm.	2	the left but evidently never did; is that
3	Q At any point during the Keene execution were	3	right?
4	drug delivered into the left arm?	4	A That's correct.
5	A No.	5	Q And they chose not to start on the left because
6	Q And how do you know that?	6	of a problem with the saline drip feeding into
7	A Just from what my medical team told me, that	7	that line; correct?
8	there was a little issue with the saline drip	8	A Yes.
9	so they went to the other arm. They weren't	9	Q And so they made the decision to start on the
10	getting the flow that they thought was	10	right arm, closer to you; correct?
11	appropriate and then they went to the other	11	A Yes, that's correct.
12	arm.	12	Q And you and you didn't know that until when?
13	Q And this is what they told you?	13	When did you first realize that they had
14	A Yes, sir.	14	switched arms?
15	Q Who in particular, numbers?	15	A When the drugs were actually being delivered.
16	A 17.	16	Q And how did you know?
17	Q 17 told you this?	17	A Well, you can see the there is a little
18	A Yes.	18	color change in the saline from the first drug.
19	Q After-the-fact?	19	It delivers at a little about like water and
20	A After-the-fact.	20	milk together. It delivers it in a different
21	Q That very day.	21	color form. And you can actually hear you
22	A Yes. Because we I questioned him. I think	22	can actually sit quiet and you can actually
23	even the Major questioned him on we thought you	23	hear the drug being delivered and you can hear
24	were going to the left arm, and that's when we	24	which line it is being delivered in and see it.
25	learned about there was this the saline flow	25	Q So you were expecting to see it in the left

	Page 150		Page 152
1	and you are looking and it is not coming in the	1	A The saline is pretty clear coming through.
2	left; right?	2	It's a steady flow, and I didn't see any
3	A No. We heard it coming into the right arm and	3	disruption. I am on his right side and I'm
4	we could see it coming into the right arm.	4	looking, but I don't see any disruption. I
5	Q Right. But you were expecting it to come in	5	just hear and see the drug moving through on
6	the left?	6	the right side.
7	A That's correct.	7	Q Let's assume let's assume there was a
8	Q And you were, I imagine, looking in the left,	8	disruption there, though, on the right on
9	looking, looking and it's not coming, and then	9	that left line before the process began. In
10	you hear it and you see it coming in the right;	10	other words, before he actually started the
11	right?	11	drug flow; okay?
12	A Yes, that's correct.	12	A Um-hum. (Affirmative)
13	Q Was it your understanding that the left on that	13	Q Did I mean, you really at that point are in
14	day, for Mr. Keene, the left arm closest to the	14	no different circumstance than you would be if
15	window that the witnesses will be watching,	15	he were in the holding cell and only have one
16	that that's supposed to be the primary line	16	line; right? You really only have one line?
17	that day?	17	A I disagree with you.
18	A Yes.	18	Q And why is that?
19	Q Who made that determination?	19	A Because the policy says we will establish two
20	A Once they are inserting the IVs in the holding	20	lines going in and that's what we do. That's
21	cell, I think between Team Member 17 and it	21	why we do it.
22	might be 17 or 9 or whoever, one of the three	22	Q They have to be two working lines; is that
23	in there, say they have got a IV flow on this	23	correct?
24	side and they have a good IV flow on this side.	24	A Yes.
25	They make a decision which one would be the	25	Q And if one of them is identified,
	Page 151		Page 153
1	primary and which one is accepting the drip.	1	hypothetically, as not working before you even
2	Q Okay.	2	begin to administer the drugs okay, let's
3	A A little faster than the other one probably?	3	assume that's the case.
4	Q Okay. So they try to decide which one is the	4	A Um-hum. (Affirmative)
5	better flow?	5	Q Then you are beginning the process with only
6	A Yes. That's correct.	6	one line; correct?
7	Q And decision that take was that left arm has	7	A Actually I don't know what the other folks
8	the better flow?	8	testified to. I am not in there. But,
9	A That's correct.	9	hypothetically, you are saying that the one
10	Q So it was told to you that the left arm was	10	line the one line is blocked up. I had no
11	going to be the primary line; correct?	11	idea that it was blocked up and then started
12	A Yes.	12	flowing.
13	Q And that was your expectation when the	13	Q Okay. Right.
14 15	execution started? A That's right.	14 15	A I couldn't even tell you if they started introducing the actual injections prior to they
16	Q You stood there after the man gave his last	16	got the flow on the right arm again and it
17	words; right?	17	started working again. I don't know. I wasn't
18	A Yes.	18	in there.
19	Q You were expecting the process to begin on the	19	Q I understand that. I am just trying to
20	left arm; is that correct?	20	understand what you I mean, you are the
21	A That's correct.	21	boss, really, and I am trying to understand
22	Q And evidently you saw no evidence of it	22	what you think the process should be. And if
23	beginning in the left arm; is that correct?	23	you have a situation where you are in the Death
24	A That's correct.	24	House now, the process has gone so far as the
25	Q Did you see any flow in that left line?	25	guy has been strapped down and the IVs have
		1	

	Page 154		Page 156
1	been inserted, you know, you are well into the	1	Now, if we had a collapse in the one line
2	process now, and now you are ready to begin	2	where it wouldn't accept any IV fluid and then
3	administering the drugs.	3	when we started to introduce IV to the right
4	A Um-hum. (Affirmative)	4	side and it won't take, we can't go any
5	Q And if at that point it is determined before	5	farther. We have got to stop and re-establish
6	the drugs are actually started that one of the	6	both lines.
7	lines is not working okay, let's just assume	7	Q And that's because both don't work, correct?
8	that's the case, all right wouldn't it be	8	A That's correct.
9	true that, under the policy, you should stop	9	Q I guess what I am hearing say, then, then that
10	and get that second line working before you	10	it is okay to start. I guess you are saying
11	even start. Correct?	11	that it's okay for the medical team to start to
12	A Let me answer it let me go ahead and answer	12	administer the drugs to the inmate laying there
13	it this way. If that medical person in that	13	on the table, even if at the time they start to
14	room delivering the drug didn't have a second	14	administer the drugs they know that one of the
15	line that actually opened back up I don't	15	lines has already failed; is that your
16	know what they testified to. I haven't talked	16	testimony?
17	to them about it. Obviously, that line had to	17	A I think what you are asking me is
18	open back up and start flowing again or they	18	Q Is that your testimony?
19	wouldn't have started.	19	A I am going to go ahead and answer this, okay.
20	Q I think we're saying the same thing.	20	Q Okay.
21	A That medical team member can I just need to	21	A I think what you are asking me is a
22	say this. A medical team member can also stop	22	hypothetical.
23	it. They can also come out and come out to me	23	Q Maybe so. Maybe so. But I want you to answer
24	and say we have got a problem.	24	that hypothetical. Do you want it read back?
25	Q Right. I hear you. But so just so we are	25	Is it your testimony that if the medical team
	Page 155		Page 157
1	clear, if you've gone through the process of	1	is in there, the process the administration
2	already inserting the IVs, the lines have	2	of the drug, that part of the process hasn't
3	started, the man has been brought to the	3	yet begun, they haven't started to administer
4	execution chamber, the last words have been	4	the drugs yet. Everything else has been done
5	red, and the IV and the drugs are ready to	5	but they are ready to start that. They haven't
6	be administered, if at that point it becomes	6	started yet and it becomes apparent to them,
7	clear that one of the lines is not working and	7	through however means they may have available
8	before the drugs have been started, you would	8	to them, that one of the lines have failed?
9	agree, would you not, that at that point the	9	A Before we even got started?
10	process must stop and that second line must be	10	Q Before they started to actually administer the
11	re-established; correct?	11	drugs.
12	A I can't say yes on that.	12	A Okay.
13	Q Why not?	13	Q Is it your testimony that it is nevertheless
14	A That's why we hook up both lines. You know, if	14	okay for them to begin on one of the lines?
15	we have a failure we won't know we've had a	15	A At this point I will say yes.
16	failure until he is on the table and we've	16	Q And that would be true even though they know
17	actually started the IV drip. And in this case	17	one of the lines is not going to work that day;
18	the IV drip didn't take. But then whatever	18	correct?
19	judgments they made or it just started taking	19	A That's correct.
20	the saline, they've chosen, instead of taking	20	Q So it is okay for them to start with only one
21	the chance on that line that indicated that	21	working line; correct?
22	there could be a problem, maybe not a problem,	22	A That's why we hook up the two lines, in case
23	but they went to the alternate side. That's	23	one doesn't work.
24	why we have that in the policy, having both of	24	Q But that's your reading of the protocol, I
25	those lines hooked up because of that reason.	25	guess; is that right?

	Page 158		Page 160
1	A That's correct.	1	have an infiltration, so we have reintroduced
2	Q That's how you would apply it?	2	Drug 1 on the opposite side, it might be the
3	A That's correct. That's how I interpret it and	3	left side, and we re-introduce Drug 1 and then
4	that's how I see it.	4	go to 2 and so on, as the protocol calls for.
5	Q So then in that event they start with that one	5	But he is not going to start that process until
6	working line and the other has already failed,	6	he has a flow on both lines.
7	they know that, and they administer that first	7	Q Okay. I think that's a little different than
8	drug; okay?	8	what you said before. So is it your testimony
9	A (The witness nodded affirmatively.)	9	now that if the medical members are ready to
10	Q It gets in and the inmate is rendered	10	administer the drugs and they notice that one
11	unconscious by the sodium thiopental, at some	11	of the lines is not working because of improper
12	point that IV fails in some way, okay, and you	12	flow or whatever the reason maybe, is it your
13	are already into the pancuronium bromide; what	13	testimony that they are not supposed to start
14	do you do?	14	the process until that until that line that
15	A We have to try to establish a second line real	15	they notice is having problems is fixed?
16	quick. That's why we move ahead with Broom.	16	A That's correct. And as I understood your
17	We don't want a medical emergency out there on	17	question before, and I didn't change my
18	the table, and that would be a full-blown	18	testimony as I understood your questioning
19	medical emergency at that point.	19	me before, we were actually into the delivery
20	Q Okay. But wouldn't it be more prudent to say	20 process, as I understood it before.	
21	to your guys, I don't want you starting if you	21 If we haven't even started and there is a	
22	know one of the lines has already failed, you	problem, then they need to stop right there a	
23	have got to make sure they are both working	23	let me know that they have got a problem before
24	before you start; right?	24	they ever get started. I guess I didn't
25	A As I understand your question, you are asking	25	understand the question before, maybe. There
	Page 159		Page 161
1	me a hypothetical.	1	has been so many of them today about the same
2	Q Okay.	2	thing. You know, I just want to make sure we
3	A I have no knowledge that we have had that	3	are clear on that. If it doesn't get
4	happen.	4	started if it's not if the lines are not
5	Q I am not saying you do. I am asking you I	5	accepting saline, then they are not going to
6	guess it could be a hypothetical. It may very	6	start the process.
7	well be that?	7	Q If both aren't accepting saline?
8	A Let me say this to answer your question a	8	A Either/or. If both or one isn't, we probably
9	little more fully and so there is a little more	9	won't start that process of drug delivery from
10	understanding. I can call it off out there,	10	the equipment room.
11	stop, we need to switch sides. They can also	11	Q I think I understand.
12	call it off. They are the medical	12	A I don't know how you asked it before, and I was
13	professionals making the delivery.	13	assuming that we have already got a drug flow
14	Had they probably not got that flow going	14	going.
15	again on that first arm, it wouldn't have	15	Q Okay.
16	started. I would guess if 17 is delivering the	16	MR. SWEENEY: I have no other
17	drugs, he is going to be walking out there and	17	questions.
18 19	telling me I have got a problem, I don't have an IV flow on the right side or left side,	18 19	MR. BOHNERT: Last two
20	either/or.	20	questions. I promise. Unless there is follow-ups.
21	He is not going to start until we have	21	THE WITNESS: Okay.
22	got a flow on both sides and that's pretty much	22	MR. BOHNERT: Let's go off
23	how it's going to go.	23	the record here for a second.
24	I mean, the idea of having this second	24	(A recess was taken at this time.)
25	line is we have delivered Drug 1 and now we	25	RE-EXAMINATION
		1	

	Page 162		Page 164
1	BY MR. BOHNERT:	1	through a rehearsal that they have already done
2	Q All right. Let's go back on the record. It's	2	four times before the execution and 120 times
3	my understanding that the protocol has required	3	since they have been working the process.
4	training elements in it; is that correct?	4	It's a rehearsal, not much changing. One
5	A Yes.	5	rehearsal we might have everything going okay
6	Q The written policy?	6	and then next rehearsal might be we have to use
7	A Yes.	7	force, whatever. So they have been through the
8	Q Okay. And for anybody to actually not go	8	whole scenario. So if that person has got 20
9	through that training would be a problem;	9	years in or has been on the team for five years
10	correct?	10	or six years and has a vacation, I am not going
11	A Yes.	11	to have them cancel it.
12	Q Okay. And are you the one who would make the	12	I guess it's that leadway I have in this
13	call on whether it's okay for someone to miss	13	protocol to say, okay, it's a rehearsal, you
14	training?	14	don't have to be here.
15	A Yes.	15	If it's training and we are actually
16	Q Okay. Are you okay with members of the team	16	doing a training session, yeah,I want them to
17	missing training and then participating in the	17	be here. And we will try to schedule it so
18	execution for that particular	18	that nobody is on vacation and we can do that
19	A Well, if you are talking rehearsals, I am okay	19	training on that day, and we have the team
20	with that. If you are talking training, there	20	members there. And then
21	is a little bit of difference. Okay. Training	21	Q Go ahead.
22	is actually a training session where we're	22	A And then the other part of it is, I think Team
23	learning something about IV insertion or	23	Member No. 21 has missed a couple because of
24	infiltration or something like that. If it's a	24	an ACA audit. And then he was actually
25	rehearsal, I don't have a big problem if	25	training people at the Corrections Training
	Page 163		Page 165
1	somebody has got another commitment and can't	1	Academy, as I understand it, in IV access and
2	make it, and we have had that happen several	2	so on. For the one session he was at CTA. He
3	times.	3	is doing the same thing there that he does
4	Q Okay. But the rehearsals are required under	4	here. And so for me to give him the excuse not
5	the protocol?	5	to be at the rehearsal, I think, is a good
6	A Yes.	6	sound call because he is practicing down there
7	Q And protocol, if I recall, require that	7	what he does up here.
8	rehearsal training; is that correct? A That's correct.	8	Q Okay.
9 10	A That's correct. Q Okay. But it's your testimony that it's okay	9	A Different application but same process.Q Okay. So it is your testimony that missing
11	for someone to participate in an execution if	11	training that is required under the protocol in
12	they have not participated in the rehearsal for	12	some instances is okay and that person can
13	that execution?	13	still participate in the execution?
14	A That's correct. I missed one. I was on	14	A In this case here, yes.
15	vacation.	15	Q In this case, meaning?
16	Q And on what basis do you make where do you	16	A In the context of the way you put the question
17	draw your authority for that, what appears to	17	to me, if they miss a rehearsal, I don't have a
18	be a decision to waive the rehearsal	18	big problem with that, as long as I know what
19	requirement for that person?	19	they are doing. In this case, No. 21 was
20	A Well, I guess if you're talking about I will	20	actually teaching at the academy, the same
21	just run the scenario for you. If you are	21	thing that he does here, as far as IV access
22	talking about the security staff, they rotate	22	and so on.
23	jobs. If a security staff member is on	23	So I don't have a real problem with that
24	vacation, I am not going to require to stop his	24	because he is going to get more practice there
25	vacation, or her vacation, and come in and run	25	in that eight hours and more teaching there in

	Page 166	Page 168
1	eight hours than he would get here in an	1 STATE OF OHIO:
2	hour-and-a-half. So I don't see any issue with	2 COUNTY OF ROSS : SS: 3
3	that at all.	I, Jennifer L. Berry, Registered
4	Q Okay. Is it a problem or not if members of the	Professional Reporter and a notary public in and for the State of Ohio, duly commissioned and
5	IV team have not been present for the IV	5 qualified, do hereby certify that the within-named
6	training, I mean, you previously testified that	Warden Phillip Kerns was by me first duly sworn to 6 testify to tell the truth, the whole truth, and
7	the training is important, and that would be a	nothing but the truth in the cause aforesaid; that
8	different scenario? Is it a problem for	7 the deposition then given by him was by me reduced to stenotype in the presence of said witness,
9	participation on the execution team if IV	8 afterward transcribed by computer; that the
10	members, for example, have not been present for	foregoing is a true and correct transcript of the 9 deposition so given by him; that the deposition was
11	the IV training?	taken at the time and place in the caption
12	A If you are talking about Team Member 21 not	specified and was completed without adjournment; and that I am in no way related to or employed by
13	being present when we had that	and that I am in no way related to or employed by 11 an attorney or party hereto, or financially
14	Q Just in general. Just in general.	interested in the outcome of said action. 12
15	A I am going to answer the question as I need to	IN WITNESS WHEREOF, I have hereunto set
16	answer here. No. 21 wasn't present during our	13 my hand and affixed my seal of office in Chillicothe, Ohio, on this 8th day of October,
17	IV training. When Ramon Perez came down here	14 2009.
18	and did our IV training for us, he wasn't	15 My commission expires February 21, 2011
19	present. He trained Ramon Perez himself. So	16 JENNIFER L. BERRY, RPR
	•	NOTARY PUBLIC IN AND FOR THE 17 STATE OF OHIO
20	do I see that as a real problem? No, I don't.	18
21	Q Okay. But the protocol, you will agree, does	19 20
22	not distinguish between making a special	21
23	exception for Member 21 or anybody else;	22 23
24	correct?	24
25	A That's correct.	25
	Page 167	
1	MR. BOHNERT: Okay. I think	
2	that's it.	
3	MR. SWEENEY: Thank you,	
4	Warden.	
5	MR. BOHNERT: Believe it or	
6	not, all done.	
7	(The deposition concluded at 6:46 PM.)
